## Key Findings

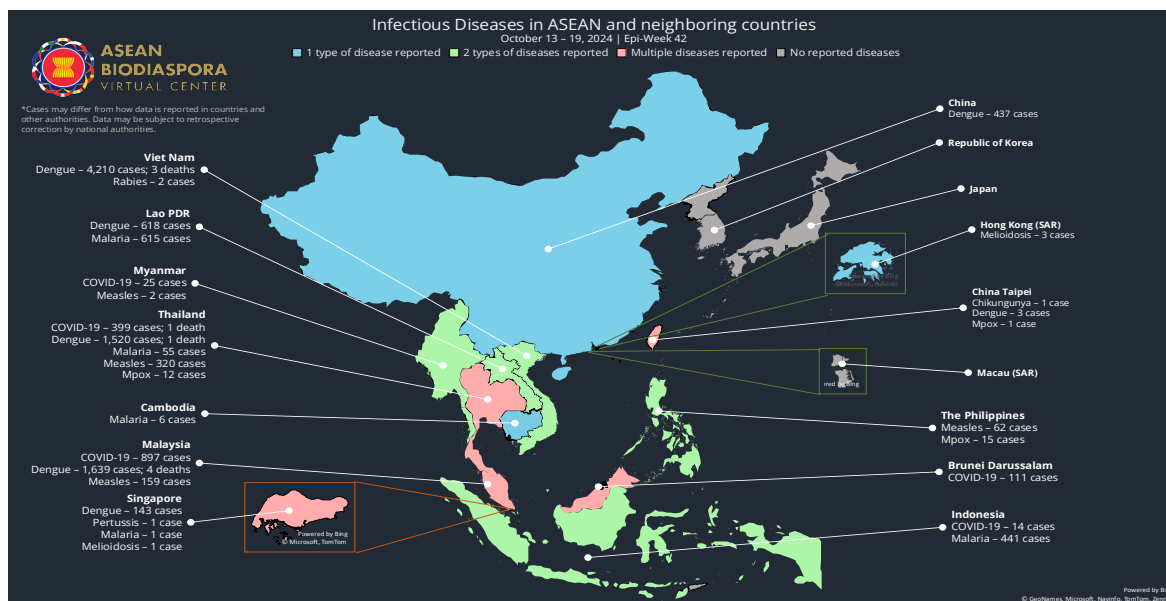

### Global

- Two new mpox cases have been identified in Hawaii, the US, including one possibly locally transmitted. In Zimbabwe, two mpox cases linked to travel from South Africa and Tanzania have been confirmed, with both patients in stable condition and recovering at home.
- A new case of anthrax on a livestock farm was reported in Spain, marking the third outbreak this year.
- California, the US, reported six confirmed and five possible human cases of avian influenza A (H5). All linked to contact with infected cattle, with no evidence of human-to-human transmission.
- Sixteen new imported chikungunya cases were reported in France by October 2024, raising concerns over potential transmission due to the presence of *Aedes albopictus* in southern regions.
- New Zealand recorded 886 new COVID-19 cases and six deaths, with the detection of the highly transmissible Omicron subvariant XEC in clinical samples. In Ohio, the US, cases have slightly decreased for the fifth consecutive week.
- Dengue remains a concern in South Asia, with Bangladesh, India and Sri Lanka reporting new cases and deaths. France recorded a total of 1,642 imported cases of dengue and 78 locally transmitted cases in 2024.
- Over 100 children have died from diphtheria this year in Pakistan, largely due to a shortage of antitoxin.
- Malaria cases have surged to 587 in Delhi, India, marking the highest number in five years.
- Pakistan has confirmed four new wild poliovirus type 1 cases, raising the total to 32 in 2024.

### ASEAN Region

- A farmer and his son in The Philippines are suspected of contracting anthrax after consuming meat from a dead carabao, exhibiting symptoms such as fever and dark lesions; samples have been sent for testing.
- Thirty cases of hand, foot, and mouth disease (HFMD) were reported at a private school in Davao City, the Philippines, prompting suspension of face-to-face classes to curb transmission.
- The Philippines reported a total of 464 HIV-related deaths from January to August 2024, predominantly among males aged 25 to 34.
- In Cimahi Municipality, West Java Province, Indonesia, 104 new HIV/AIDS cases were reported in 2024.
- Measles cases are rapidly increasing in Viet Nam's southern provinces, especially among children and adults in factories, with Ho Chi Minh City reporting over 1,000 cases and four deaths this year.
- The Philippines reported six new mpox cases, bringing the total to 24 since 2022; the WHO has urged health authorities to intensify prevention strategies against the viral disease.

## Mpox: Highlights and Situation Overview

- From 1 January 2023 to 19 October 2024, **27,728** confirmed cases worldwide since 2023, including **182** deaths. Globally, the CFR was **0.66 %**.
- **1,228 confirmed cases** including **18 deaths** in the **ASEAN** region, with a CFR of **1.47%**.
- **26,500 confirmed cases** of mpox have been reported in **other regions** (other than the ASEAN region):

### Mpox cases in the ASEAN region (Jan. 1, 2023 to Oct. 19, 2024)

ASEAN Member States	Cumulative Cases 2023-2024	New Cases Since Previous Report	Cumulative Deaths 2023-2024	CFR
Cambodia <sup>1</sup>	20	0	0	0.00%
Indonesia <sup>2</sup>	87	0	0	0.00%
Lao PDR <sup>3</sup>	1	0	0	0.00%
Malaysia <sup>3</sup>	10	0	0	0.00%
Philippines <sup>4</sup>	28	15	0	0.00%
Singapore <sup>5</sup>	48	0	0	0.00%
Thailand <sup>3</sup>	833	12	10	1.20%
Vietnam <sup>3</sup>	201	0	8	3.98%
<b>ASEAN Total</b>	<b>1,228</b>	<b>27</b>	<b>18</b>	<b>1.47%</b>
