## Key Findings

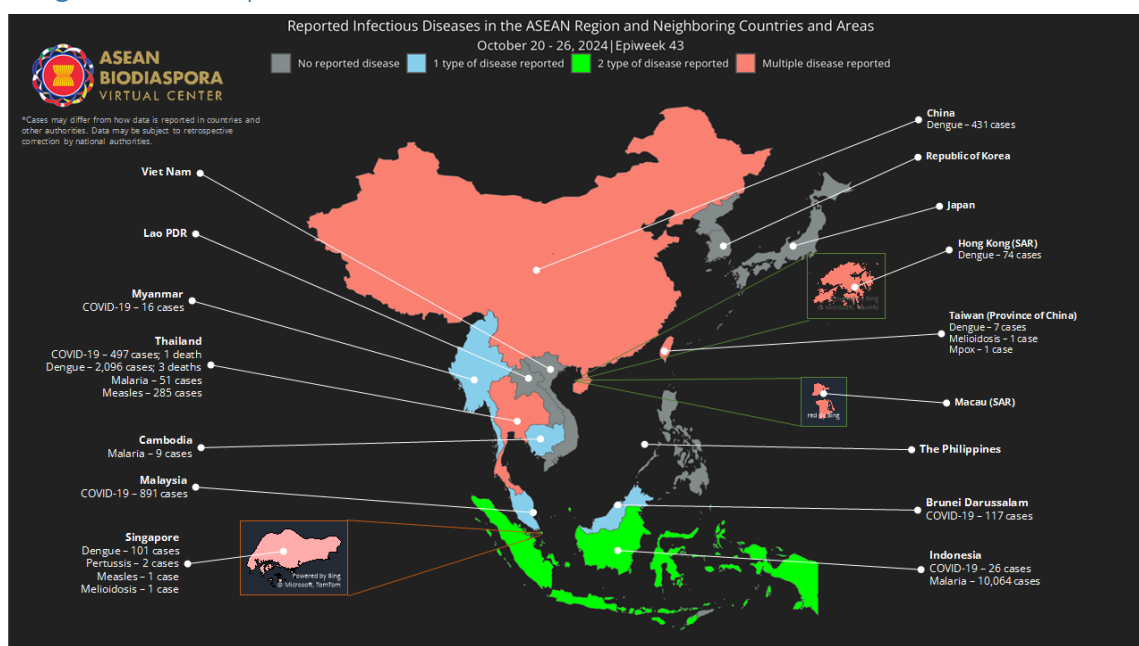

### Global

- The United States Centers for Disease Control & Prevention (US-CDC) has confirmed two human cases of avian influenza in Washington, after a poultry farm outbreak; 800,000 birds culled, no human transmission evidence.
- Ohio, the US, has reported 2,751 new cases, the sixth consecutive week of decline. The state has vaccinated at least 697,050 residents (5.9% of the population). The state has reported 108 new hospitalizations and six ICU admissions.
- South Asia (Bangladesh, India and Pakistan), is experiencing a dengue epidemic with new cases and deaths reported. The surge also occurs in China and Italy with local infections reported.
- Hand, foot, and mouth disease (HFMD) cases have increased in Japan in October, with an average of 10.8 cases per facility. Most cases resolve within three to seven days.
- Sassoon General Hospital in Pune, India, confirmed 309 leptospirosis patients until September, with 275 recorded within the past four months.
- Haryana State, India, has seen a significant increase in malaria cases, reaching 168 this year, nearly twice the 2023 number. The most severely affected districts are NCR, with Sonipat reporting 35 cases.
- Rwanda has recorded its 63rd case of Marburg after 10 days without new cases. The patient, a health worker, is reported to be in stable condition after recently vaccinated.
- Taiwan reported a surge of melioidosis with two new cases reported in Kaohsiung City. One patient, 80-year-old man with multiple chronic diseases died. This year, 69 cases were reported within a month of Typhoon Kemi.
- African countries continue to report new cases of Mpox. Germany has reported its first case of clade 1b mpox from a person who recently travelled abroad.
- Pertussis cases in the US have risen five-fold this year, with a case count of 18,506, mainly affecting children.
- Seven new wild poliovirus cases reported in Pakistan, bringing the total to 33.

### ASEAN Region

- Several ASEAN member states (Indonesia, Malaysia, the Philippines, and Viet Nam) report new cases of dengue.
- The Island Garden City of Samal in Ilocos, the Philippines, has reported 70 cases of hand, foot and mouth disease (HFMD) from January to October 2024.
- The Philippines Department of Health (DOH) reported a total of 5,835 leptospirosis cases as of October 5, reflecting a 16% increase from the 5,050 cases logged during the same period last year.
- As of October 13, Ho Chi Minh City, Viet Nam, had recorded 1,079 measles cases, including four deaths. In Thanh Hoa province, nearly 40 cases were reported in the first week of October. The health department is urging medical units to enhance infection control and ensure full vaccinations.

## Reported Infectious Diseases in the ASEAN Region and Neighboring Countries Epidemiological Week 43 | October 20 - 26, 2024

## Mpox: Highlights and Situation Overview

- From 1 January 2023 to 26 October 2024, **27,728** confirmed cases worldwide since 2023, including **182** deaths. Globally, the CFR was **0.66 %**.
- **1,228 confirmed cases** including **18 deaths** in the **ASEAN** region, with a CFR of **1.47%**.
- **26,500 confirmed cases** of mpox have been reported in **other regions** (other than the **ASEAN** region):

### Mpox cases in the ASEAN region (Jan. 1, 2023 to Oct. 26, 2024)

ASEAN Member States	Cumulative Cases 2023-2024	New Cases Since Previous Report	Cumulative Deaths 2023-2024	CFR
