

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of November 4, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 47.7 million cases and more than 1.21 million deaths attributed to COVID-19. Globally, the highest percentage of cases have been reported in the United States. At least 73,799 new cases were reported as of 4:00 p.m. EST. The seven-day rolling average number of daily new cases is 81,846 as of November 2, a record-high and up roughly 40% from two weeks prior. Over the past week, 18 states have broken daily records for the number of new cases reported, and hospitalizations are rising in 42 states. Rural areas are currently seeing the largest rise in cases, particularly in the Upper Midwest. Presently, North Dakota and South Dakota are reporting the highest number of cases in the country per 100,000 inhabitants, at 7,297 and 6,212 respectively, with significant increases also reported in Michigan, Iowa and Minnesota. In Wisconsin, the test positivity rate has surpassed 30% over the past week, indicating a larger outbreak than official data suggest and prompting health officials to set up a field hospital in Milwaukee. A total of 1,200 counties, or a full third of the counties in the country, now qualify as a COVID-19 hotspot according to the White House Coronavirus Task Force. Government officials suggest that the latest surge in cases is being driven by asymptomatic infections, particularly in the 12-30 age group, which is then being transferred to older demographics and leading to higher morbidity as a result. With respect to the General Election in progress on November 3, the CDC has stated that voters who are sick or quarantined will be allowed to head to the polls and cast their ballot in person, so long as safe behaviors are practiced such as social distancing and wearing a mask.
- In an attempt to curb the spread of COVID-19, the National COVID-19 task force and the Health Ministry have teamed up for a strengthened tracing program in 10 priority provinces, namely Aceh, North Sumatra, Jakarta, West Java, Central Java, East Java, Bali, South Kalimantan, South Sulawesi and Papua. The program aims to add more contact tracers in community health centers (Puskesmas) and data officers to carry out simple epidemiological analyses in 51 cities and regencies in those 10 provinces. This program seeks to assist the cities and regencies in detecting more than 80% of close contacts from confirmed COVID-19 cases within 72 hours and monitoring the close contacts for 14 days from contact with an infected person. Dr. Hidayat, the acting general director of disease prevention and control at the Health Ministry said on Tuesday (November 3) that the program would feature open recruitment for contact tracing volunteers and data managers in the 51 cities and regencies. The Health Ministry announced 2,973 new confirmed COVID-19 cases on Tuesday, bringing the total number of cases nationwide to 418,375.
- According to the Ministry of Health and Sports on November 4, Myanmar is planning to adopt a new community-based containment strategy in an effort to become a coronavirus-free country in a matter of months. Myanmar's daily COVID-19 positive cases remains above the 1000-mark with cases highest at markets, homes for the aged, monasteries, and factories. As of November 3, the country reported 1197 new COVID-19 cases, bringing the country's total cases to 55,804.
- Schools throughout Cambodia reopened since Monday (November 2) for the first time since March but with class sizes and hours limited by COVID-19 precautions. The Education Minister said that a second closing will be considered if any of the students became infected while attending classes. He said that

students and teachers should learn to work with vigilance because COVID-19 was still raging in Europe and the United States and no vaccine for it has yet been developed.

- Malaysian Prime Minister on Monday (November 2) ordered a review of regulations on social and sports activities, seeking stricter curbs amid a fresh spike in COVID-19 cases. The Prime Minister said that he was concerned about the COVID-19 pandemic in Malaysia as the country was still reporting an increase in positive cases. Many districts in Negeri Sembilan, Melaka, Perak and Johor were green zones before this, but are now yellow zones within the span of one or two weeks. The country has reported 1054 new COVID-19 cases on November 3, bringing the country's total cases to 34,393.

Travel Advisories (new update/s)

- Vietnam: Vietnam's Immigration Department has announced another automatic stay extension for foreigners stranded in Vietnam due to the pandemic until November 30. The measure applies to those who entered since March 1 allowing them to leave the country without any penalty or official procedures. Those that have entered prior to March 1 are also eligible provided they show documents by their embassies or by Vietnamese authorities to confirm they were quarantined or treated for COVID-19.

Cases and Deaths as of 04 November 2020

- As of November 04 (2PM, GMT+8), worldwide, there were **47,742,011** confirmed cases, including **1,218,823** deaths. Globally, Case Fatality Rate (CFR) is **2.55**.
- In **China**, there were **92,029** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,346), Macau (46***), and Taiwan (567).
- 959,225 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **23,159 deaths**.
