Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of September 4, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 26.3 million cases and more than 870,000 deaths attributed to COVID-19.
- The Jakarta (Indonesia) administration is set to issue a policy that will require COVID-19 patients in the capital to be quarantined at coronavirus referral centers, including the emergency hospital at the Kemayoran former athletes village in Central Jakarta. Under the new regulation, self-quarantine will no longer be an option for COVID-19 patients regardless of whether or not they exhibit coronavirus symptoms. Cases with medium or heavy symptoms would be required to check into hospitals, whereas those with light symptoms or no symptoms at all would be isolated at the athletes village. According to the governor, the regulation is a response to the lack of discipline among individuals on self-quarantine but occasionally failed to abide the existing health protocols.
- Indonesia on Thursday (September 3) reported 3,622 new COVID019 cases, a record high in daily cases, and 134 more deaths. It is the highest number of deaths recorded in a day since July 22. In addition, Indonesia is reportedly among the countries with the highest COVID-19 death rate among children, surpassing the United States. KawalCOVID-19, a volunteer group that independently records virus case numbers and deaths in Indonesia, recorded a case fatality rate (CFR) among children, or people aged 17 years and younger, was currently at 0.9 percent, or 45 times higher than in the United States, which was at 0.02 percent. In a separate statement issued on Monday (August 31), the Indonesian Pediatric Society (IDAI) noted that the country's rate was higher than the rates in China and Italy, each of which stood below 0.1%, as well as Europe, where the rate was 0.3%. It was stated that the percentage of child deaths per total COVID-19 deaths is also high in Indonesia.
- Myanmar has imposed mandatory quarantine and coronavirus tests for visitors to its capital city after the country reported more cases. Anyone entering the capital, Naypyitaw, where the government is based, will be quarantined, tested, and allowed entry only if their result is negative
- Singapore health authorities have detected new COVID-19 clusters at foreign worker dormitories previously found to be clear of the infection. Authorities declared last month that all workers living in dormitories had recovered or had been tested to be free from COVID-19. But, over the last two weeks new clusters have emerged. On Wednesday, the health ministry said clusters were detected at three more dormitories after finding links between cases.
- Thailand on Thursday (September 3) reported its first local coronavirus transmission in more than 100 days without local transmission after a man who was recently imprisoned failed a routine test at a Bangkok jail.

Travel Advisories (new update/s)

- Malaysia: The Malaysian government will impose an entry ban on citizens from countries with more than 150,000 COVID-19 cases starting September 7. However, the country will allow entry for emergency cases or involving bilateral relations, such as if a person needs to come for a meeting between countries. This ban is in addition to the country's initial announcement on September 1 banning long-term pass holders who are citizens of India, Indonesia and the Philippines to enter the country starting September 7. However, the government will allow Malaysians from high-risk countries to return but will be

subject to the mandatory 14-day quarantine as stipulated in the country's standard operating procedures.

- Singapore: Ministry of Foreign Affairs (MFA) announced that fast lane for residents of Singapore and South Korea will open starting today (September 4) for those who need to make essential business or official trips between both countries. Eligible travellers will have to abide by the mutually agreed terms and prevailing public health measures in the respective countries. These include health safeguards in the form of pre-departure and post-arrival testing as well as the need to adhere to a controlled itinerary for the first 14 days in the receiving country.
- Vietnam: The Civil Aviation Authority of Vietnam (CAAV) is proposing resuming flights to Guangzhou, Seoul, Vientiane, Phnom Penh, Taipei and Tokyo, which would mean about 5,000 travelers arriving each week. Those arriving must still undergo two weeks of quarantine, according to health ministry requirements, unless the duration of their visit is under 14 days.

Cases and Deaths as of 04 September 2020

- As of September 04 (2PM, GMT+8), worldwide, there were **26,238,793** confirmed cases, including **1,048,637** deaths. Globally, Case Fatality Rate (CFR) is **4.00.**
- In **China**, there were **90.516** confirmed cases with **4,734** deaths, including deaths in Hong Kong (93) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (4,839), Macau (92), and Taiwan (489).
- **484,978 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **11,695 deaths**.
