

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of July 6, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been more than 11.4 million cases, and over 534,000 deaths attributed to COVID-19. According to the World Health Organization (WHO), member nations recorded at least 212,000 new COVID-19 cases on July 4, the highest single-day total increase since the beginning of the pandemic.
- WHO has accepted the recommendation from the Solidarity Trial's International Steering Committee to discontinue the trial's hydroxychloroquine and lopinavir/ritonavir treatment arms for COVID-19. The International Steering Committee formulated the recommendation in light of the evidence for hydroxychloroquine vs standard-of-care and for lopinavir/ritonavir vs standard-of-care from the Solidarity trial interim results, and from a review of the evidence from all trials presented at the 1-2 July WHO Summit on COVID-19 research and innovation. These interim trial results show that hydroxychloroquine and lopinavir/ritonavir produce little or no reduction in the mortality of hospitalized COVID-19 patients when compared to standard of care. Solidarity trial investigators will interrupt the trials with immediate effect. This decision applies only to the conduct of the Solidarity trial in hospitalized patients and does not affect the possible evaluation in other studies of hydroxychloroquine or lopinavir/ritonavir in non-hospitalized patients or as pre- or post-exposure prophylaxis for COVID-19. The interim Solidarity results are now being readied for peer-reviewed publication.
- Indonesia's Health Ministry has announced last July 5 that 82 people died of COVID-19, the highest reported death toll in a day so far since the outbreak in the country started, bringing the official death toll up to 3,171. East Java remains the province with the highest number of COVID-19 deaths with 1,020 deaths. With 63,749 confirmed COVID-19 cases and a total of 3,171 deaths as of July 5, Indonesia remains the country with the highest number of COVID-19 cases and the highest death toll among ASEAN Member States.
- On July 5, the Philippines reported its biggest single-day jump in new COVID-19 cases, adding 2,434 confirmed new cases and taking the total count to 44,254. The ministry said the rise could be attributed to increased contact among people as the country began easing lockdown measures to help reduce the pandemic's damage to the economy. Also on July 5, Philippines' Department of Health (DOH) announced on that it will stop giving lopinavir and ritonavir to hospitalized COVID-19 patients following recent advice and recommendations from experts. According to the health authorities, patients currently on the treatment will still be able to use the antiretroviral drugs, though they will also have the option to stop if they preferred to not continue.
- Brunei's businesses like restaurants are now able to increase customer capacity to 80 per cent as Brunei Darussalam enters the third phase of the de-escalation plan. At the same time, open-air stalls are allowed to provide dining services at 100 percent capacity while adhering to social distancing guidelines. According to Brunei's Ministry of Health, no active cases are being treated at the National Isolation Center and July 5 marks the 60th consecutive days without new COVID-19 cases in the country since May 7.

Travel Advisories (new update/s)

- Indonesia: The Bali provincial administration is preparing to welcome foreign visitors in September following months of international travel restrictions

because of the ongoing COVID-19 crisis. The approach entails reopening the region's popular tourist destinations to international visitors on September 11.

- Malaysia: According to Malaysia's authorities on July 5, the country is still not opening its international borders to foreign tourists and workers as discussions with countries categorized as green zones are still continuing. It was stated that the matter is being discussed by the Foreign Ministry. Nonetheless it depends on the advice of the country's Ministry of Health as some countries which were earlier in green zone have returned to red again.
- Myanmar: Myanmar authorities have announced that the suspension on international flights, in place to limit the spread of COVID-19, will remain in place until July 31. Special flights, medical evacuations, and cargo flights remain exempted from this restriction. Further restrictions within Myanmar remain in place until July 15 at the earliest, with an overnight curfew in Yangon from 00:00 to 04:00 (local time) and a lockdown in Insein township.
- Philippines: On July 4, Philippine authorities said that it will reopen one more terminal at its main airport in the capital for international travel, expanding service operations to airliners from Japan and other countries beginning this week. Ninoy Aquino International Airport in Manila said it will restart international flight operations at Terminal 3 beginning July 8.
- Thailand: Thailand's main international airport started rapid coronavirus tests on since July 3 for some overseas arrivals after a three-month ban on foreign visitors was partially lifted this month. Business travelers, diplomats and government guests staying for less than 14 days are considered "fast track travelers" who will be swab tested for the disease at Suvarnabhumi Airport to ensure they are COVID-19 negative before entry. The government is considering a plan to open more international travel with a "travel bubble" arrangement with some countries in September.

Cases and Deaths as of 06 July 2020

- As of July 06 (2PM, GMT+8), worldwide, there were **11,430,624** confirmed cases, including **534,120** deaths. Globally, Case Fatality Ratio (CFR)* is **4.67**.
- In **China**, there were **85,317** confirmed cases with **4,648** deaths, including deaths in Hong Kong (7) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (1,269), Macau (46), and Taiwan (449).
- **165,625 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **4,184 deaths**.

REGION	COUNTRY	FIRST CONFIRMED CASE(S)	LATEST REPORT ON CONFIRMED CASE(S)	TOTAL CONFIRMED CASES (NEW CASES)	TOTAL DEATHS (NEW DEATHS)	CASE FATALITY RATIO
ASEAN REGION	Brunei	10 Mar 2020	07May 2020	141	3	2.13
