

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of July 10, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been more than 12.1 million cases, and over 552,000 deaths attributed to COVID-19. Over the past 30 days, countries with the highest per capita incidence rates in reported cases included Oman, Chile, and French Guiana. Today, the WHO formally confirmed that the existing evidence suggests that droplets carrying the novel coronavirus may be airborne under certain conditions, particularly in indoor, crowded settings lacking adequate ventilation.
- The World Health Organization (WHO) acknowledged "evidence emerging" of the airborne spread of the novel coronavirus, after a group of scientists urged the global body to update its guidance on how the respiratory disease passes between people. Speaking at Tuesday's briefing in Geneva, the WHO's technical lead for infection prevention and control said there was evidence emerging of airborne transmission of the coronavirus, but that *it was not definitive*. It was also mentioned that WHO will publish a scientific brief summarizing the state of knowledge on modes of transmission of the virus in the coming days.
- On July 9, WHO launches independent panel to review COVID-19 pandemic response. The Independent panel for Pandemic Preparedness and Response will be headed by former New Zealand Prime Minister Helen Clark and former Liberian President Ellen Johnson Sirleaf. It said the investigation should probe "the actions of WHO and their timelines pertaining to the COVID-19 pandemic".
- Indonesia announced 2,657 new COVID-19 cases, the biggest daily rise so far, taking the nationwide tally to 70,736. This marks the first day where over 2,000 cases were reported and represents the highest increase of new cases reported in the country within a 24-hour period. West Java Province reported the highest surge in the last 24 hours with 962 cases, according to government spokesman for COVID-19. In addition, 58 new COVID-19 associated deaths were confirmed. According to media sources, it was reported that almost 50% of the new cases (1,262 cases) were detected at a national military training centre in West Java, where both cadets and trainers have tested positive for the disease.
- According to Malaysia's authorities today (July 10), there will no longer be a limit as to how many people can attend a conference, social gathering or prayers in mosques or places of worship starting July 15. Previously, the government only allowed a maximum of 250 people to be present at meetings, conferences and social gatherings such as weddings, while mosques and other places of worship could only allow one-third of its space to be filled by the congregation. The Senior Minister said that the special Cabinet committee has agreed in its latest decision to allow event organizers, wedding hosts and mosques to determine how many people can participate depending on the size of the event space, with social distancing put in practice.
- Philippines COVID-19 cases soar past 50,000 as lockdown eases. The Department of Health reported 1,395 new cases on July 9, bringing the country's total to 51,754.

Travel Advisories (new update/s)

- Indonesia: National flag carrier Garuda Indonesia plans to open direct flights to Denpasar, Bali, from the United States, France and India in an attempt to boost the country's tourism that has been battered by the pandemic. The

direct flights will connect Bali with American cities like Los Angeles and San Francisco and Indian cities like Mumbai and New Delhi as well as France. Under the plan, Bali, Indonesia's long-time main tourism hub, would be the entry point for tourists, not the capital Jakarta.

- Vietnam: Vietnam plans to freeze approval for new entrants to the airline industry until 2022 due to the effects of the pandemic on the country's airline industry.
