

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of March 12, 2021

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 119.2 million cases and more than 2.6 million deaths attributed to COVID-19.
- Chinese Premier said that the country would continue to work with the World Health Organization (WHO) in trying to find the origins of COVID-19. The Premier, speaking on Thursday (March 11) at a media briefing, said China had "acted in a fact-based manner and with an open, transparent and cooperative approach".
- Cambodia reported its first death from the coronavirus on Thursday (March 11) amid its biggest COVID-19 outbreak so far. With 1,124 COVID-19 cases recorded in total, Cambodia has the fewest cases in Asia.
- The Philippines' Department of Health on Thursday (March 11) recorded 3,749 new COVID-19 cases, the highest daily increase in cases in nearly six months. Authorities have warned the public not to be complacent and continue to practice physical distancing to avoid the spread of the virus accelerating further.
- Malaysia on Thursday (March 11) made a law to tackle fake news related to COVID-19 and the state of emergency imposed nationwide since January. The ordinance, which takes effect on Friday (March 12), will make it an offense to publish or reproduce any "wholly or partly false" content related to the pandemic or the emergency declaration. The jurisdiction of the ordinance will extend to any individual who commits an offense regarding Malaysia's handling of the pandemic outside of Malaysia, regardless of nationality or citizenship. The ordinance prescribes a heavier penalty for individuals found guilty of funding acts of publishing fake news and a maximum of six years imprisonment, or both.

Vaccine Update

- Thailand's Prime Minister and members of his Cabinet cancelled on Friday (March 12) its plan to receive AstraZeneca vaccine shots over reports of blood clots in some European nations. On Thursday (March 11), Denmark, Norway and Iceland temporarily suspended the use of AstraZeneca's COVID-19 vaccine over concerns about patients developing post-jab blood clots. Thailand's overall vaccination strategy is heavily reliant on AstraZeneca, which will be produced locally by a company owned by the country's king, with 61 million doses reserved for the Thai population. However, the locally made AstraZeneca is not due to be ready until at least June, and Thailand last week began limited inoculations with imported doses of the Sinovac vaccine. Thailand has so far administered about 40,000 of the 200,000 recently received doses of Sinovac's CoronaVac. Meanwhile, according to the Prime Minister on March 11, South Korea will extend vaccination for people aged 65 years and older with AstraZeneca's coronavirus vaccine to ramp up its immunization drive. The country has been rolling out the vaccine since the last week of February, beginning with the elderly and health workers, but had excluded more than 370,000 over-65s in nursing homes citing a lack of clinical trial data on the age group. In addition, according to the Korea Disease Control and Prevention Agency (KDCA), health authorities adjusted the interval between initial and booster doses of the shot to 10 weeks from the current eight in line with World Health Organization recommendations. According to the KDCA, the country has administered 546,277 doses of COVID-19 vaccines as of Thursday midnight which include both AstraZeneca and Pfizer-BioNTech vaccines. Philippines' Department of Health (DOH) and the Food and Drug Administration (FDA) said today (March 12) that there is no indication for the Philippines to stop rollout of AstraZeneca vaccines. The DOH, NTF (National Task Force against COVID-19) and FDA are closely coordinating on this matter and that the public is assured that the government will closely monitor all deployed vaccines. The

DOH and the FDA also pointed out that according to the European Medicine Authority (EMA), there is currently no indication that vaccination has caused the development of blood clots, which is not listed as a side effect of the vaccine.

Travel Advisories (new update/s)

- Indonesia: The governor of Bali has designated 3 areas of the province as COVID-19 “green zones” to welcome international tourists. These include destinations in Ubud, Sanur, and Nusa Dua.
- Thailand: The Thai government’s COVID-19 task force said, provided people continue to cooperate with efforts to keep the virus suppressed, the country will re-open fully by October and all restrictions will be lifted.

Cases and Deaths as of 12 March 2021

- As of 12 March 2021 (2PM, GMT+8), worldwide, there were **119,260,524** confirmed cases, including **2,641,537** deaths. Globally, Case Fatality Rate (CFR) is **2.2**.
- In **China**, there were **102,195** confirmed cases with **4,849** deaths, including deaths in Hong Kong (203) and Taiwan (10). Confirmed cases in China include confirmed cases in Hong Kong (11,151), Macau (48), and Taiwan (978).
- 2,562,852 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **55,211 deaths**, with a CFR of **2.2**.
