COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 72.4 million cases and more than 1.6 million deaths attributed to COVID-19.
- Indonesia, the most populous country in Southeast Asia, has topped the region in terms of confirmed cases and fatalities. Since Indonesia's first cases were detected in early March, it has recorded a steady increase, reaching an average of about 6,000 new cases daily over the past week. On December 3, the country confirmed a record 8,369 new cases. On December 11, Indonesia reached more than 600,000 cumulative COVID-19 cases. The Health Ministry reported 6,189 new confirmed COVID-19 cases on Sunday (December 13), bringing the total number of cases nationwide to 617,820. According to data released by the ministry on Sunday, 166 more people have died of the disease, bringing the death toll to 18,819.
- Myanmar government has further extended the country's COVID-19 preventive measures until the end of the year as the country has reported more than 100,000 COVID-19 cumulative cases. The country's capital, Yangon, remains the highest region with the highest number of COVID-19 cases. Yangon has seen an increase in positive COVID-19 cases with an average of more than 700 new cases in the past week. As of December 13, Myanmar has reported a total of 108,342 COVID-19 cases in the country.

Vaccine Update

- Thousands of vials of the long-awaited COVID-19 vaccine of Pfizer-BioNTech are expected to arrive in all 50 states (USA) starting December 14. The Director of the US Centers for Disease Control and Prevention, accepted an advisory committee's recommendation Saturday that the vaccine may be given to people 16 and older, meaning it can now be administered in the United States. In a statement issued on December 13 (Sunday), US-CDC Director announced that he had accepted the recommendation from the CDC's Advisory Committee on Immunization Practices. According to him, the first vaccinations are "set to start as early as Monday (December 14)". The FDA granted emergency use authorization to the vaccine on Friday (December 11) , and the CDC's ACIP voted on Saturday to recommend it for people age 16 and older. The CDC vaccine advisory committee recommended that health care workers and long-term care facility residents be first in line to receive the shot. Meanwhile, the US plans to distribute 40 million vaccine doses by year's end, followed by 50 to 80 million doses in January and in February of 2021.
- After its withdrawal of application for the conduct of COVID-19 shots clinical trials in the country, according to Philippines' Department of Heath (DOH), the next step for British vaccine developer AstraZeneca for its vaccines to be able to be used in the Philippines is an application for emergency use authorization. The Health Undersecretary said today (December 14), that the government is currently negotiating with the firm regarding its vaccines.

Travel Advisories (new update/s)

- Singapore: Singapore will tighten COVID-19 border measures for travellers who have travelled to Hong Kong 14 days prior to entering Singapore and will be required a 14-day stay-home notice at dedicated facilities. The new measure will apply to travellers entering Singapore starting Sunday (December 13) according to the Ministry of Health (MOH) said in a press release on Friday. In addition, starting December 18, all travellers entering Singapore who have a travel history in the past 14 days to Hong Kong will also be required to take a COVID-19 polymerase chain reaction (PCR) test within 72 hours before departure. Travellers will need to present a valid negative COVID-19 test as a condition of approval to enter Singapore. However, Singaporeans and permanent residents are exempted from the PCR test.
- Malaysia: Malaysia is shortening the quarantine period for incoming travelers to 10 days from 14, starting today (December 14). The Health Ministry's Director-General said that the decision to shorten the quarantine period was based on the latest scientific evidence and practices in other countries.
