

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of February 15, 2021 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 107.8 million cases and more than 2.3 million deaths attributed to COVID-19.
- Malaysia recorded its highest ever COVID-19 recoveries in a day when 4,525 patients were discharged on February 14. According to the Health Ministry's Director-General that 213,814 people or 80.9% have recovered from COVID-19 since the pandemic began. At the same time, the country recorded 2,464 new cases, the first time the number reported is below 2,500 since January 11. The number of confirmed cases in the country now stands at 264,269.
- Six active Covid-19 cases are receiving treatment at the National Isolation Centre (NIC) in the Tutong District, while no new cases were reported in the Sultanate as of yesterday (February 14). The Ministry of Health (MoH) said the number of COVID-19 cases in Brunei Darussalam remains at 184, with 175 recoveries. The last local transmissions were reported on May 6, 2020, with 43 imported cases being reported since then.
- Indonesia's Ministry of Health said on February 14 that it will use a rapid antigen test as an initial screening for COVID-19 cases to accelerate detection and reduce the rate of transmissions. The ministry's director for prevention and control of direct infectious diseases, said that the antigen test results are more accurate than those of the antibody test, which is faster than the polymerase chain reaction (PCR) swab test. She added that the PCR swab test is the best mechanism, but Indonesia has only 620 laboratories and most of them are located in big cities. The government has distributed 1.7 million antigen test kits to all areas on the islands of Java and Bali, which are implementing the micro community activity restrictions (micro lockdown) from February 9 to February 22, covering villages and sub-districts by maximizing the role of public health centers as the frontline in handling COVID-19. Previously, authorities were only able to conduct contact tracings for five to 10 people. With the antigen rapid test, the government hopes to reach up to 20-30 people. The results of the antigen tests will be included in the daily updates of confirmed cases of COVID-19 in Indonesia.

Vaccine Update

- Japan's health ministry said on Sunday (February 14) that it has officially approved Pfizer's COVID-19 vaccine, the first such approval in the country as it steps up efforts against COVID-19 spread. Japan's Prime Minister said that vaccinations will begin from the middle of next week, starting with about 10,000 health workers. The government hopes to secure enough supplies for about 126 million people by mid-year.
- Brunei's Ministry of Health announced on February 13 that the country received a batch of Sinopharm COVID-19 vaccine donated by China. The ministry said they are still reviewing the plans for the distribution of the vaccine in accordance with the recommended priorities.

Travel Advisories (new update/s)

- Laos: Xekong province will open its first international border crossing with Vietnam next month to ease movement of goods and people between two countries. The province's governor said on Friday (February 12) that Lao and Vietnamese governments had agreed to upgrade the existing Dakta-ok-Nam Giang border crossing between Xekong and Quang Nam provinces to international status.

Cases and Deaths as of 15 February 2021

- As of 15 February 2021 (2PM, GMT+8), worldwide, there were **109,580,802** confirmed cases, including **2,412,951** deaths. Globally, Case Fatality Rate (CFR) is **2.2**.
- In **China**, there were **101,528** confirmed cases with **4,838** deaths, including deaths in Hong Kong (193) and Taiwan (9). Confirmed cases in China include confirmed cases in Hong Kong (10,780), Macau (48), and Taiwan (937).
- 2,259,805 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **48,998 deaths**, with a CFR of **2.2**.

**The calculated CFR is based on reported deaths and reported case counts, and does not account for recovered cases over time or rate of testing in a particular region*

***Rt Transmission Rate: the average number of secondary cases caused by each infectious individual, based on the daily incidence of new cases over the previous seven days*

COVID-19 Epi curve among ASEAN Countries
