

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of October 16, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 38.6 million cases and more than 1.09 million deaths attributed to COVID-19. The United States (U.S.) cases topped 8 million on Thursday (October 15), rising by 1 million in less than a month. The country reported 60,000 infections on Wednesday, the highest since August 14, with rising cases in every region, especially the Midwest. Since the pandemic started, over 217,000 people have died in the U.S. from COVID-19.
- Sinovac Biotech may start late-stage trials of its coronavirus vaccine in the Philippines as early as next month according to Food and Drugs Administration (FDA) chief. Philippines' FDA expects to receive the Chinese drug maker's formal application for phase three clinical trials within two weeks and regulators will make a decision after their evaluation. A Sinovac spokesman, meanwhile, confirmed that materials had been provided to the Philippines in the hope of starting Phase 3 trials, but has given no timeframe. In addition, Philippines announced on October 16 that persons aged 15 to 65 years old are now allowed to go out of their homes during community quarantine. However, according to Presidential spokesperson, Local Government Units (LGUs) may impose a higher age limit for minors, depending on the COVID-19 situation in their respective jurisdictions. Philippines reported 2,261 new COVID-19 cases, bringing the total number of cases to 348,698.
- Indonesia reported 4,411 new COVID-19 cases on October 15, taking its total number of COVID-19 cases to 349,160, surpassing the Philippines to become the country in Southeast Asia with the highest number of cases. Indonesia also reports 112 new COVID-19 deaths, with total fatalities reaching 12,268. On Thursday (October 15), the national COVID-19 task force has called on regional administrations not to let their guards down even if their region has been downgraded to an orange or green zone. According to task force spokesperson Wiku Adisasmito, there are currently 34 regions and cities that have been consistently classified as orange zones, meaning there is a medium risk of COVID-19 infection for six consecutive weeks. They comprise 12 regions/cities in North Sumatra, 11 in Central Java and 11 in East Java. He called on regional administrations to continue stepping up their testing, tracing and treatment (3T) efforts, while proactively engaging with the central government whenever they need equipment such as reagent for testing, medicines and many other things.

Travel Advisories (new update/s)

- Singapore: Singapore and Hong Kong announced on Thursday (October 15) that both cities will set up a travel bubble as they moved to re-establish overseas travel links and lift the hurdle of quarantine for visiting foreigners. Hong Kong's Commerce Secretary Edward Yau and Singapore's Transport Minister Ong Ye Kung said travelers under the scheme would need to get negative COVID-19 test results and travel on dedicated flights. Further details, including the launch date, will be fleshed out in coming weeks, they said. However, according to the Singapore's Transport Minister, the newly announced bilateral air travel bubble will be suspended if there is a spike in COVID-19 infection rates in Singapore or in Hong Kong.

Cases and Deaths as of 16 October 2020

- As of October 16 (2PM, GMT+8), worldwide, there were **39,097,596** confirmed cases, including **1,101,926** deaths. Globally, Case Fatality Rate (CFR) is **2.82**.
- In **China**, there were **91,459** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,214), Macau (92), and Taiwan (531).
- 795,744 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **19,380 deaths**.
