

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of September 16, 2020 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 29.6 million cases and more than 936,000 deaths attributed to COVID-19. India's total coronavirus cases passed 5 million on Wednesday (September 16), health ministry data showed, as the pandemic extends its grip on the vast country at an ever-faster rate. With its latest 1 million cases recorded in just 11 days, a world record, India now has 5.02 million COVID-19 cases.
- Japan said on Tuesday (September 15) it has committed 17.2 billion yen (US\$165 million) in funds for its participation in the World Health Organization's COVID-19 vaccine programme. The programme, known as COVAX, is aimed at helping buy and fairly distribute vaccination shots against the novel coronavirus around the world. But some countries which have secured their own supplies through bilateral deals, including the United States, have said they will not join. The funds are part of a 1.64 trillion yen reserve intended to bolster the government's response to the virus. Japan has also pursued independent arrangements with global pharmaceutical companies to secure vaccines, with the government pledging to have enough supply for the whole population by the first half of 2021. Meanwhile, South Korea will said it will secure early supply of the COVID-19 vaccines for 30 million people, or 60% of its population. South Korea will purchase 20 million doses of vaccines from the COVAX scheme, available for 10 million people, and 40 million doses from private drug makers, the health authorities said in a statement. The government has prepared 172 billion won (US\$146 million) to pay for vaccines, including US\$70 million for the 20 million doses from the COVAX facility.
- The Philippines Health Ministry said on Wednesday (September 16) that the government continues to negotiate supply deals with a wide range of COVID-19 vaccine makers. The Philippines has joined a World Health Organization-led vaccine trials and allocation plan and is promoting itself as a site for pharma firms' phase 3 trials.
- An official from China Centre for Disease Control and Prevention (CDC) said that COVID-19 vaccines being developed in China may be ready for use by the general public as early as November. China has four COVID-19 vaccines in the final stage of clinical trials.
- Oxford University announced on September 12 that the phase 3 clinical trial for a vaccine candidate in collaboration with AstraZeneca is now being resumed across all of its sites after regulatory approval. The resumption came six days after the study was suspended following a reported side-effect in a U.K. patient. According to AstraZeneca, the patient had developed severe neurological symptoms that prompted the pause, where the symptoms were consistent with transverse myelitis, a rare inflammation of the spinal cord. However, after investigation, the UK Medicines and Healthcare products Regulatory Agency has confirmed it would be safe to resume trials.
- In an effort to prevent a second wave of COVID-19, mobile testing units are being sent out to areas along the Thai-Myanmar border following a surge of cases in the neighbouring country. The Biosafety Mobile Units will be run by medical volunteers along with help from local doctors from Thailand's Department of Disease Control. The 13 units will have laboratory equipment to collect samples from those who might be at risk of catching the virus. Photos of the units show a medic behind a window. Glove attachments allow the medic to conduct a swab test.

### Travel Advisories (new update/s)

- Malaysia: Malaysia's Prime Minister Muhyiddin Yassin has emphasized on September 15 that the government will not rush into reopening the country's borders. On the contrary, border controls would be tightened, including increasing efforts to check the entrance of illegal immigrants to curb the spread of COVID-19. Malaysia's borders are closed except for business purposes, including for investment and education, with strict compliance of stipulated standard operating procedures.
- Myanmar: China has locked down a city on the border with Myanmar and will launch a mass coronavirus testing programme, officials said Tuesday (September 15), after a handful of infections were detected there. The three cases were found in the city of Ruili in western Yunnan province, a major land border crossing point with neighboring Myanmar.
- Thailand: The Thai cabinet has approved a plan to allow foreign tourists to come to Thailand but they'll have to agree to mandatory 14 day quarantine and stay for at least 90 days. Thailand's Prime Minister on September 15 announced that the government would issue "special tourist visas" for visitors who would have to come for at least 90 days. The new 90-day special tourist visa would be able to be extended twice, for 90 days each time. Long-stay visitors could begin arriving next month.

### Cases and Deaths as of 16 September 2020

- As of September 16 (2PM, GMT+8), worldwide, there were **29,437,043** confirmed cases, including **933,718** deaths. Globally, Case Fatality Rate (CFR) is **3.17**.
- In **China**, there were **90,756** confirmed cases with **4,742** deaths, including deaths in Hong Kong (101) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (4,972), Macau (91), and Taiwan (499).
- **570,516 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **13,918 deaths**.
