

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of August 19, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 22.2 million cases and more than 781,000 deaths. The World Health Organization (WHO)'s Regional Director for the Western Pacific stated that several countries in the Asia-Pacific region have entered a "new phase of the pandemic". The official stated that the epidemic is changing as adults, ranging from 20-50, are driving the spread of COVID-19. Although there are regional differences, there is a consistent shift towards COVID-19 being reported among younger people. As many people in this age range are asymptomatic or have mild symptoms, they unknowingly pass on the virus to others. This increases the risk of spread to vulnerable populations living in densely populated urban areas and underserved rural areas.
- The World Health Organization on Tuesday (Aug 18) said it was concerned that the COVID-19 spread was being driven by people in their 20s, 30s and 40s, many of whom were unaware they were infected, posing a danger to vulnerable groups. WHO officials said that this month, the proportion of younger people among those infected had risen globally, putting at risk vulnerable sectors of the population worldwide, including the elderly and sick people in densely populated areas with weak health services. WHO Western Pacific regional director said that what we are observing is not simply a resurgence but a signal that we have entered a new phase of pandemic in the Asia-Pacific.
- South Korea on Tuesday (Aug 18) ordered nightclubs, museums and buffet restaurants closed and banned large gatherings in and around the capital as a burst of new coronavirus cases sparked fears of a major second wave. The country's "trace, test and treat" approach to curbing the virus has been held up as a global model, but it is now battling several clusters mostly linked to Protestant churches.
- Health authority in China reported on Wednesday (August 19) 17 new coronavirus cases in the mainland for August 18, down from 22 the day before. All of the new infections were imported cases, the National Health Commission said in a statement, making it the third straight day of zero new locally transmitted infections.
- Philippine President on Monday eased the COVID-19 measures in and around the capital Manila as his government promised a "refreshed" approach to fighting COVID-19 which includes intensified testing. Under the relaxed rules which took effect on August 19, most businesses, including dine-in services will be allowed to reopen. Religious services will also be permitted provided that houses of worship limit total attendance to 30% of a building's capacity. The government has so far tested more than 1.9 million and it aims to test 10 million people - or nearly a tenth of the population - by the second quarter of next year.
- Thailand's Centre for Covid-19 Situation Administration (CCSA) said this morning (August 19) that they may extend the decree for another month because they "worry the public will let its guard down", leading to a second wave of infections.
- Singapore's Ministry of Manpower (MOM) said in a press release today that all dormitories have been declared cleared of COVID-19 as of Wednesday (August 19), including the standalone blocks in purpose-built dormitories serving as isolation or quarantine facilities. All residents in the standalone blocks

have either completed their isolation or quarantine, or been moved to other government facilities depending on their health status.

Travel Advisories (new update/s)

- Malaysia: Malaysia's northern state of Penang on August 17 has barred entry for overseas visitors seeking medical treatment until it finalizes new health and safety procedures in light of the coronavirus crisis. The ban will stay until the healthcare ministry finalizes procedures to deal with healthcare tourism.
- Thailand: Foreign medical tourists are now permitted to apply to come to Thailand for medical treatment with strict disease control measures being put in place. Under the CCSA regulations, foreign medical and wellness tourists have to arrive by air to ensure effective disease control, not via land border checkpoints at this stage. Visitors must have an appointment letter from a doctor in Thailand and entry certificates issued by Thai embassies across the globe. People wanting to visit Thailand for medical procedures at this time will need to contact the Thai Embassy in their country to organize the visa and paperwork. They will also need to have proof that they tested negative for COVID-19 before arrival. Once in Thailand, they will be tested again and will be required to stay at the medical facility for at least 14 days, during which they will be able to start their chosen treatments. The CCSA said that medical procedures will only be allowed for foreigners at hospitals that have been registered to provide the treatments and have proven their ability to contain any potential outbreak.

Cases and Deaths as of 19 August 2020

- As of August 19 (2PM, GMT+8), worldwide, there were **22,227,315** confirmed cases, including **781,670** deaths. Globally, Case Fatality Ratio (CFR)* is **3.52**.
- In **China**, there were **89,838** confirmed cases with **4,711** deaths, including deaths in Hong Kong (70) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (4,561), Macau (46), and Taiwan (486).
- **382,596 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **9,208 deaths**.
