

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of October 23, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 41.8 million cases and more than 1.14 million deaths attributed to COVID-19. According to the BlueDot COVID-19 Data Suite, the European Continent continues to have the highest proportion of countries reporting either moderate or high increasing rates of new cases over the previous seven days. Of the 51 countries currently monitored by BlueDot in Europe, 23 (45%) are reporting high rates of increasing cases, including France, the United Kingdom, Russia, Spain, and Italy. Of the 48 countries monitored in Asia, nine (19%) are reporting high rates of increasing cases, including Iran, Iraq, Jordan, Turkey, and Armenia. In North America, of the 41 countries and territories monitored, one is reporting a high rate of increasing cases (the United States) and three (7%) are reporting moderate rates of increasing cases (Antigua and Barbuda, Cuba, and the U.S. Virgin Islands). The continents with the highest proportion of countries reporting a decreasing rate of new cases are currently South America (50% of the 14 countries monitored) and Africa (20% of the 56 countries monitored).
- Indonesia's low testing rate has persisted seven months into the COVID-19 pandemic, as laboratories throughout the archipelago face problems ranging from limited testing kits to delays in reported results. According to Insights data on October 22, Indonesia had tested 149 people per 1000,000 in the last 14-days. The latest World Health Organization situation report on Indonesia highlighted the need for the country to increase its laboratory capacity to ensure all suspected cases were tested. WHO data showed a widening gap between suspected cases and the number of people tested. The country's COVID-19 cases have reached to 377,514, the highest among ASEAN Member States including the 4,432 new cases on October 23.
- For the third consecutive day, the Philippines' Department of Health (DOH) reported fewer than 2,000 new coronavirus infections as of Thursday (October 23). On October 23, the Philippines' Inter-Agency Task Force on the Management of the Emerging Infectious Diseases (IATF) has approved a 30% seating capacity for religious gatherings like masses in general community quarantine (GCQ) areas like Metro Manila. The decision comes as the predominantly Catholic country gears up for the Christmas season, when attendance to "Simbang Gabi" or Night Mass is a tradition.

Travel Advisories (new update/s)

- Philippines: The Inter-Agency Task Force on the Management of the Emerging Infectious Diseases (IATF) has allowed the entry of foreigners with investors visa starting next month, IATF spokesperson Harry Roque said Friday. According to the President's spokesperson, foreigners allowed to enter the country starting November 1 include those with visas issued by the Bureau of Immigration pursuant to Executive Order No. 226, or the Omnibus Investments Code, as amended, and Republic Act. No. 8756; those with 47(a)(2) visas issued by the Department of Justice and those visas issued by the Aurora Pacific Economic Zone and Freeport Authority and the Subic Bay Metropolitan Authority. Today (October 23), the IATF has also approved the resumption of motorcycle taxi pilot study. With the resumption of motorcycle-taxis, another mode of public transport will be available for commuters as the government gradually reopens the pandemic-hit economy.

- Singapore: A joint press statement on Friday (Oct 23) by the foreign affairs ministries of Singapore and Germany announced that both countries agreed to set up 'green lane' for essential business and official travel. Both countries also said that the green lane could serve as a model for future similar arrangements between Singapore and other European countries. Operational details of the green lane, including the procedural requirements, health protocols, and application process, will be announced at a later date.

Cases and Deaths as of 23 October 2020

- As of October 23 (2PM, GMT+8), worldwide, there were **41,894,333** confirmed cases, including **1,142,230** deaths. Globally, Case Fatality Rate (CFR) is **2.73**.
- In **China**, there were **91,650** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,281), Macau (92), and Taiwan (548).
- **869,507 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **21,076 deaths**.

REGION	COUNTRY	FIRST CONFIRMED CASE(S)	LATEST REPORT ON CONFIRMED CASE(S)	TOTAL CONFIRMED CASES	NEW CASES	TOTAL DEATHS	NEW DEATHS	CASE FATALITY RATE	REPORTED CASES/100,000	REPORTED TESTS/100,000	RT MEAN **
