

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of May 29, 2020 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- World Health Organization's (WHO) has published an interim guidance on the clinical management of COVID-19. This guidance document is intended for clinicians caring for COVID-19 patients during all phases of their disease. WHO has also published an interim guidance on ethical considerations to guide the use of digital proximity tracking technologies for COVID-19 contact tracing. This document provides guidance to policy-makers and other stakeholders about the ethical and appropriate use of digital proximity tracking technologies for COVID-19.
- Indonesia's COVID-19 task force head stated in the presscon that Tangerang City, Depok City, Bekasi City and Bekasi Regency have the highest risk of COVID-19 transmission in Greater Jakarta based on a recent increase in cases. The map of the risk for COVID-19 transmission was based on public health criteria by the WHO according to him. Dr. Wiku said that according to the map, Jakarta was at moderate risk because the province had shown a 17.6 percent decline in weekly new cases. However, the second wave is possible considering people that participated in mudik [exodus] will be returning to Jakarta. In addition, the Armed Forces Chief announced that Indonesia has ordered the deployment of 340,000 troops and police officers to enforce rules on wearing face masks and physical distancing, as the world's fourth-most populous nation prepares to reopen its economy after its lockdown. They will be deployed in four provinces - Jakarta, West Java, West Sumatra and Gorontalo - to ensure the country's safe transition to the "new normal".
- According to Malaysia's Health Ministry, they will continue to use hydroxychloroquine in trials to treat COVID-19 patients adding that authorities will closely monitor any side effects.
- On May 28, Philippines' President approved a recommendation to ease the lockdown in the capital Manila from June 1, resuming much-needed activity in an economy on the brink of recession. Under the more relaxed rules that will be in place from June 1 to 15, local officials can still place communities deemed as high risk under lockdown. Gatherings of up to 10 people will be allowed, workplaces, shops and some public transportation will re-open and movement in and out of Manila will be permitted. Schools, tourist destinations, dine-in restaurants will remain closed, and stay-at-home orders will remain for the elderly and children.
- According to Singapore's Minister for National Development on May 28, Phase 2 of Singapore's post-circuit breaker reopening could start before the end of June. The move from Phase 1 to the next will depend on the number of COVID-19 transmissions in the community in the first two weeks of June. In Phase 2, retail shops, consumer services and sports facilities such as stadiums and swimming pools will be allowed to reopen. People would be able to dine in at food outlets, subject to a maximum of five people. Social gatherings of up to five people will be allowed and households may receive up to five visitors per day. It will still be compulsory to wear a mask outside the house in Phase 2.
- The Thai government says it will lift all remaining business and activity lockdowns on July 1. This includes interprovincial and international travel, as well as the end of emergency decree and curfew. The lift of all restrictions, imposed under the country's emergency decree, would be a "complete reopening of the country". Officials and Centre for Covid-19 Situation Administration (CCSA) will

spend June getting ready for this milestone in the country's relatively successful COVID-19 strategy.

- China reported no new confirmed coronavirus cases as of the end of May 28, down from two a day earlier.
- On May 28, South Korea re-imposed a series of COVID-19 social distancing measures it had eased earlier this month, as a series of clusters threatened to challenge its success in containing COVID-19. According to the Health Minister, museums, parks and art galleries will all be closed again from starting today (May 29) for two weeks, while companies were urged to re-introduce flexible working schedules to its employees.

### Travel Advisories (new update/s)

- Indonesia: Indonesia's Lion Air Group has temporarily suspended all domestic flights until May 31 citing the fact that many passengers still turn up at airports without proper travel documents (including entry permit) and have denied boarding. The entry permit must include a clearance letter from the neighborhood chief (RT or RW), a health certificate, travel documents, a passport photo and an Indonesian ID card (KTP).
- Malaysia: Malaysia tightens border control to guard against import of COVID-19 cases by illegal immigrants. To date, there are 4,399 illegal immigrants at the three detention depots. All of them have been screened (for COVID-19) and 354 are receiving treatment while 13 are still awaiting results. Sixteen of them have been discharged and were sent back to their respective countries.
- Thailand: According to the National Security Council Secretary-General, the emergency decree will remain until the end of June and the ban on international travel will continue until then. All airports are closed to international flights until at least the end of June, except for repatriation flights (and other government, freight and military exceptions).
- Vietnam: Vietnam will grant e-visa to citizens of 80 countries starting July as per Resolution No. 79/NQ-CP. However, Vietnam's borders remain closed to foreign visitors until further notice.

### Cases and Deaths as of 29 May 2020

- As of May 29 (2PM, GMT+8), worldwide, there were **5,794,633** confirmed cases, including **360,560** deaths. Globally, Case Fatality Ratio (CFR)\* is **6.22**.
- In **China**, there were **84,548** confirmed cases with **4,645** deaths, including deaths in Hong Kong (4) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (1,067), Macau (45), and Taiwan (441).
- **5,710,085 confirmed cases** of COVID-19 have been reported in **212 countries/states** (other than China, Hong Kong, Taiwan and Macau):

REGION	COUNTRY	FIRST CONFIRMED CASE(S)	LATEST CONFIRMED CASE(S)	CONFIRMED CASES/ (Deaths)	CASE FATALITY RATIO*
