

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of March 5, 2021

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 116.3 million cases and more than 2.5 million deaths attributed to COVID-19.
- Japan's Economy Minister said on Friday (March 5) that the Japanese government plans to extend a state of emergency to combat COVID-19 for Tokyo and three neighboring prefectures (Chiba, Kanagawa and Saitama) until March 21, two weeks longer than originally scheduled. Under the state of emergency, the government has requested restaurants and bars close by 8pm and stop serving alcohol an hour earlier. People are also asked to stay home after 8pm unless they have essential reasons to go out.
- Malaysia has detected its first two COVID-19 cases with the Nigerian SARS-CoV-2, also known as the B.1.525, variant, in two infected foreign nationals who had flown in from the United Arab Emirates (UAE). The Health director-general said they were found to be positive by a swab RT PCR test after arriving from Dubai. The Institute for Medical Research (IMR) subsequently proceeded to do full genome sequencing due to their travel history. Further analysis indicated the presence of all the reported mutations corresponding to this variant. Meanwhile, the government's directive on working from home (WFH) remains in force for now. The Senior Minister for Security said that no announcements have been made by the International Trade and Industry Ministry or the Public Service Department director-general on changes to the WFH directive.
- Authorities in Hanoi (Vietnam) allowed the reopening of local restaurants and cafes but with strict pandemic prevention measures. Hai Duong authorities, meanwhile, will lift social distancing measures across the province and end lockdowns of Chi Linh City and Cam Giang district since March 3.
- Philippines' Department of Health (DOH) on Friday (March 5) reported 52 new cases of the B.1.351 COVID-19 variant from South Africa, bringing the total number of cases in the Philippines to 58. The DOH, in a statement, said that 41 of the new patients have addresses in the National Capital Region (NCR), while 11 patients are being verified if they are local cases or are returning overseas Filipinos (ROFs). Meanwhile, the DOH also reported 31 additional cases of the B.1.1.7 variant of COVID-19 from the United Kingdom (UK). This brings the country's total of UK variant cases to 118

Vaccine Update

- The Thai government is looking at offering free COVID-19 vaccines to migrant workers who are covered under the nation's social security program. The Thai Ministry of Labour is set to discuss the move with the Social Security Board. If approved, over 2.3 million migrant workers would be inoculated for free. The Labour Minister says migrant manual labourers are vital to Thai industries and the economy, therefore, should not be left out of the vaccination program.
- According to the Health Minister on Friday (March 5), Singapore is making "steady progress" in its COVID-19 vaccination programme. The minister said that as of Thursday (March 4), more than 350,000 Singapore residents have received the first dose of their vaccine, including about 80% of healthcare workers. In all, 215,000 Singaporeans have received their second doses.

Travel Advisories (new update/s)

- Thailand: Starting April, all foreign visitors in Thailand will be able to experience "area quarantine", after the government confirmed the scheme for 5 provinces. Following a meeting with the Public Health Ministry, the Tourism Minister Phiphat Ratchakitprakarn confirmed that Phuket, Krabi, Chiang Mai, Chon Buri (Pattaya), and Surat Thani (Koh Samui and Koh Pha-ngan) have been chosen to pilot the scheme.

Foreign tourists opting for area quarantine will be required to remain in their hotel rooms for the first 3 days of their stay. They will be tested for COVID-19 and, if negative after 3 days, will be allowed to leave their room and roam freely around the resort for the remainder of their 14-day quarantine. At the end of the 14-day period, they will once again be tested for the virus and, if negative, allowed to travel around the quarantine area.

- Malaysia: Interstate travel may be allowed by March 18 if the number of new COVID-19 cases is showing a downward trend. The Health Minister said the ministry would put forward a recommendation to the government.
- Vietnam: Van Don Airport in Quang Ninh province resumed operations on March 3 after nearly a month due to COVID-19 restrictions.

Cases and Deaths as of 05 March 2021

- As of 05 March 2021 (2PM, GMT+8), worldwide, there were **116,371,954** confirmed cases, including **2,581,570** deaths. Globally, Case Fatality Rate (CFR) is **2.2**.
- In **China**, there were **101,980** confirmed cases with **4,846** deaths, including deaths in Hong Kong (201) and Taiwan (9). Confirmed cases in China include confirmed cases in Hong Kong (11,056), Macau (48), and Taiwan (960).
- **2,485,497 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **53,806 deaths**, with a CFR of **2.2**.
