COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 88.3 million cases and more than 1.9 million deaths attributed to COVID-19.
- According to the Minister, Indonesia will impose two weeks of increased coronavirus restrictions in parts of its most populous island of Java from January 11 to 25 and in the resort island of Bali to support hospitals and reduce fatality rates. Meanwhile, Chief Economic Minister also said some of the measures include changes to opening hours for malls and limited capacity at restaurants and places of worship. The announcement was made following the fact that the country has recorded its biggest daily rise in COVID-19 infections with 8,854 on January 6 and 9,321 new cases on January 7, bringing the total number to 797,723.
- Malaysia reported a record 3,027 new COVID-19 cases on Thursday (January 7), the country's biggest daily increase since the start of the COVID-19 pandemic. Only six of these were imported while the rest were local infections. About a third of the new infections were reported in Johor, where health authorities recorded 1,103 new cases. This was followed by the Klang Valley area, comprising Selangor and Kuala Lumpur, with a total of 1,022 cases. As of Thursday, Malaysia has reported a cumulative total of 128,465 cases, of which 25,221 are classified as active or infectious.
- According to the according to Thailand's Centre for COVID-19 Situation Administration after going around 9 months without a COVID-19 case, the Isaan province Buriram reported a local coronavirus infection. The new wave of infections has far exceeded the first with now 5,048 active cases compared to April's peak of 1,451. The Buriram patient worked delivering food to people who frequented an illegal gambling den in Chon Buri which is a so-called "red zone" and under tight restrictions due to the high number of COVID-19 infections. In addition, the nationwide Emergency Decree has been extended until February 28. The decree gives the Thai government the ability to set policies and procedures to prevent the spread of COVID-19 such as restricting travel and setting up road checkpoints. Government spokesperson said it is just an extension of the decree that is currently in place that was initially set to end on January 15. The extension, adding on another 45 days, was proposed by the Centre for COVID-19 Situation Administration and approved by a Cabinet committee on January 5.
- Japan's capital Tokyo began its first day under a coronavirus state of emergency on Friday (January 8) with much of life as usual, including morning commuter trains shuttling crowds of mask-wearing people at bustling stations. The country's Prime Minister reiterated his request for restaurants to shorten business hours and for people to work from home. The emergency runs through Feb 7. The declaration is asking restaurants and bars to close by 8PM while drinks will not be served after 7PM. It applies to Tokyo and the three surrounding prefectures of Saitama, Chiba and Kanagawa.

Vaccine Update

- According to the World Health Organization (WHO) on Thursday (January 7), the world's poorest countries can expect to start receiving their first COVID-19 vaccine doses between the end of January and mid-February. Vaccination is already under way in some of the world's wealthiest nations, including the United States, Britain, European Union countries and Canada.

COVAX, the globally-pooled vaccine procurement and distribution effort, has struck agreements to secure 2 billion doses - and the first of those will start rolling out within weeks. COVAX aims to secure vaccines for 20 per cent of the population in each participating country by the end of the year, with funding covered for the 92 lower- and lower-middle income economies involved in the scheme. It is co-led by the WHO, the GAVI vaccine alliance and the Coalition for Epidemic Preparedness Innovations (CEPI).

Travel Advisories (new update/s)

- Thailand: According to yesterday's announcement in the Royal Gazette, people who travel from any of the 28 "red zone" provinces and conceal their travel timeline can face up to 2 years in prison and a fine of 40,000 baht. The tightened measures are aimed to slow people's travel from the affected area to other parts of the country and to prevent the spread of the virus. The Royal Gazette also announced more stringent measures for travellers going to and from the 5 coastal provinces at the highest risk. Only essential travel is allowed to and from Samut Sakhon, Chonburi, Rayong, Chanataburi and Trat. To enter or leave the provinces, travellers must have a permission document issued by local authorities.
