COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 50.5 million cases and more than 1.25 million deaths attributed to COVID-19. Europe, with 12.6 million confirmed cases for more than 305,700 deaths, has once again become the epicentre of the pandemic. Last week, out of the more than 3.9 million new cases recorded in the world, more than half (2.1 million) were in the 52 countries of the European continent. In the last seven days, the European countries that registered the largest number of new infections were France with 381,000 new cases, Italy (223,000), the United Kingdom (160,000), Poland (159,000) and Spain (143,000). After Europe, the worst-hit regions are Latin America and the Caribbean with 11.6 million infections and 411,700 deaths and Asia with 11 million cases and nearly 177,000 deaths. Next is the United States and Canada with 10.1 million cases and 247,000 deaths, the Middle East (2.7 million cases and 64,500 deaths, Africa (1.9 million cases and 44,800 deaths) and Oceania with nearly 30,000 infections and 941 deaths.
- The Center for Indonesia's Strategic Development Initiatives (CISDI) recommends that the government mobilize and assign resources to carry out the so-called 3T of testing, tracing and treatment (isolation) down to the community health center (Puskesmas) level. CISDI policy director Olivia Herlinda said that, based on an online survey regarding the needs of Puskesmas during the pandemic, which was held by the CISDI in collaboration with the groups KawalCOVID19 and Cek Diri, there were still many challenges in carrying out the 3T, the key strategy for COVID-19 handling while waiting for a vaccine. As of November 8, the Health Ministry reported 3,880 new confirmed COVID-19 cases on Sunday (November 9), bringing the total number of cases nationwide to 437,716.
- Malaysia's Education Ministry announced on Sunday (November 8) that schools in Malaysia will close from Monday (November 9). Education Minister Dr Radzi Jidin said the decision to close schools earlier was taken following the implementation of the conditional movement control order (CMCO) in all states in the peninsula, except Kelantan, Pahang and Perlis, which will be effective from Monday until December 6. Malaysia reported 852 new COVID-19 cases on Sunday (November 8), taking the country's total number cases to 40,209. Malaysia also announced that the government will be reinstating its conditional movement control order (CMCO) across all but three states in peninsular Malaysia for four weeks, as the country continues to battle a resurgence of COVID-19. The CMCO, which will run from November 9 to December 6, will affect the states of Kedah, Penang, Negeri Sembilan, Johor and Terengganu. The three states not affected by the restrictions are Kelantan, Perlis and Pahang.
- Health officials in Myanmar have warned that there will be further waves of COVID-19 before the vaccine can be manufactured and distributed to the masses. The Ministry of Health and Sports reported 1,029 COVID-19 new cases on November 8, bringing the country's total number of cases to 61,377, now the 3rd country among the ASEAN Member States with highest COVID-19 cases.
- The Philippine government is in talks with Anglo-Swedish drugmaker AstraZeneca to procure doses of its prospective COVID-19 vaccine. A Philippines authority said today (November 9) that Philippines is looking to procure three to five million doses of

vaccine from AstraZeneca but it is negotiating whether this can be increased to 10 million doses. The Department of Health reported 2,442 new COVID-19 on Sunday (November 9), the highest since October 19. The total number of COVID-19 cases in the country have now reached 396,395.
