# COVID-19: Highlights and Situation Overview

## Global Update

- Worldwide, there have been over 178 million cases and more than 3 million deaths attributed to COVID-19.

## Regional Update

- Indonesia's president ordered authorities to speed up the country's vaccination campaign as the World Health Organization warned Thursday of the need to increase social restrictions in the country amid a fresh surge of coronavirus infections caused by variants. Indonesia saw its number of confirmed new cases climb to more than 12,600 on Thursday (June 17), an increase blamed on travel during last month's Aidilfitri holiday as well as the arrival of new virus variants, such as the Delta variant. The government data shows that in Jakarta, the number of hospital beds occupied has shot up to 75% this week from 45% last week. The WHO in its situation report on Thursday noted that Indonesia's drastic increase in bed occupancy rates is a major concern and necessitates the implementation of stricter public health and social measures, including large-scale social restrictions.
- Laos' National Taskforce for COVID-19 Prevention and Control said on Thursday (June 17) that COVID-19 lockdown measures are expected to be extended. She said that the extension will see the continuation of some measures and the relaxation of other measures, however, the country is not yet able to return to normalcy while the virus continues to spread in the community. According to her, there will be some measures that still need to be strictly implemented and some additional measures that will be mitigated.

## Vaccine Update

- Six million more doses of COVID-19 vaccines - half from the UK's AstraZeneca and half from the US's Pfizer - will arrive in Vietnam in the third quarter of this year. The vaccine will be offered to industrial park workers and priority groups detailed in the Government's Decree 21, including frontline workers, diplomats, customs officers, and teachers, among others. Vietnam has been accelerating its COVID-19 vaccine vaccination effort and targets to secure around 150 million doses this year to inoculate at least 70 to 80% of its population. Meanwhile, there are at least 1.77 million people in Vietnam who have had one dose of COVID-19 vaccine, while 72,325 have been fully vaccinated. Vietnam on Thursday (June 17) called on the World Health Organization to speed up the COVAX vaccine drive as the country's new daily infections hit a record high. The head of the country's COVID-19 task force also urged the WHO to accelerate the transfer of vaccine manufacturing technology so Vietnam can become one of the vaccine production hubs in the region.

## Travel Advisories (new update/s)

- Laos: Everyone entering Laos must comply with all of the standard COVID-19 prevention and control measures, even if they have had two doses of a Covid vaccine. According to the Director General of the Department of Hygiene and Health Promotion on Thursday (June 17), vaccinated travellers still need to spend 14 days in quarantine upon arrival in Laos. However, he added that people who had received two doses of a vaccine would benefit from a special policy on domestic travel, in line with the government's COVID-19 prevention and control measures. Under these rules, passenger transport by air and road between Vientiane and the provinces is

permitted for people who have had two vaccinations at least one month prior to travel. These individuals will also not need to spend 14 days in quarantine.
