

# COVID-19 Situational Report in the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of July 7, 2021

Canada

# COVID-19: Highlights and Situation Overview

## Global Update

- Worldwide, there have been over 185 million cases and over 4 million deaths attributed to COVID-19.
- The World Health Organization (WHO) has added the 'Lambda' variant, also known as C.37, as the seventh and newest "variant of interest". It was first detected in Peru in December 2020, and is related to 81% of its cases since April. According to the WHO, Lambda carries a number of mutations with suspected phenotypic implications, such as a potential increased transmissibility or possible increased resistance to neutralizing antibodies. However, there is currently limited evidence on the full extent of the impact associated with these genomic changes, and further robust studies into the phenotypic impacts are needed to better understand the impact on countermeasures and to control the spread. Further studies are also required to validate the continued effectiveness of vaccines. This strain has reportedly spread to around 30 countries, including the UK, but is mostly contained to Latin America.

## Regional Update

- Malaysia reported a sharp increase in new COVID-19 cases on Tuesday (July 6), one month after a nationwide lockdown was reimposed in a bid to curb a surging number of COVID-19 infections. Of the 7,643 new COVID-19 cases, more than half were from the Klang Valley area. Selangor reported 3,260 infections while 1,550 were found in Kuala Lumpur. According to the Health Ministry, 21 new clusters were also identified, taking the total number of active clusters in Malaysia to 852
- Indonesia is grappling with a surge in COVID-19 cases and has recorded more than 2.3 million cases as of Tuesday (July 6) morning. On July 6, Indonesia's daily infections top the 30,000-mark for the first time with 31,189 new cases in the past 24 hours, bringing the country's total COVID-19 cases to 2,345,018. Daily deaths also hit a new high with 728 fatalities, bringing the country's total number of COVID-19 related deaths to 61,686. Officials have cited "significant increases" in daily infections and active cases, with hospital bed occupancy rates for COVID-19 patients in Lampung, Riau Islands, West Sumatra, East Kalimantan and West Papua provinces exceeding 60%. Speaking at a virtual joint press conference with the health minister and head of the disaster agency, the coordinating minister for Maritime Affairs and Investment said that the government has prepared for a "worst-case scenario" in which cases hit 40,000. A new COVID-19 makeshift hospital in East Jakarta will be operational on Thursday (July 8) in addition to the current three COVID-19 makeshift hospitals in the capital Jakarta. The Indonesian government is also going to add 7,000 new isolation rooms in the capital's COVID-19 makeshift hospitals while the military and police are also preparing their hospitals in Jakarta and second city Surabaya. According to the Ministry of Health, they have anticipated a spike in COVID-19 cases in five provinces in Sumatra namely Riau, Riau Islands, Lampung, West Sumatra and South Sumatra. The spike is also expected to be drastic in West Kalimantan and East Kalimantan due to the transmissible Delta strain. In today's news, Indonesia expands movement restrictions to cover the entire country. Tough curbs will be enforced until July 20 in 43 areas outside Java and Bali islands, the majority being on Sumatra Island. The measures include a 75% work-from-home requirement for non-essential sectors, closure of mosques and churches, and a closing time of 5PM for malls and restaurants, except for takeout. Areas outside "Level 4" emergency zones will have loose restrictions.
- Lao authorities have locked down Champasack Province following one new community transmitted case of COVID-19, as well a high number of imported cases. According to a notice issued by the Champasack provincial governor yesterday (July 6), authorities have

issued temporary lockdown measures across the province to prevent the spread of COVID-19. The notice states that lockdown measures throughout the province will be in force from July 7 until July 20. Pubs and bars, karaoke bars, entertainment venues, cinemas, snooker halls, massage parlors, spas, and internet cafes are to remain closed. Meanwhile, gatherings are not allowed, with the exception of funeral ceremonies, which must have limited participation and must comply with COVID-19 prevention and control measures.

### **Vaccine Update**

- Singapore's Ministry of Health (MOH) on July 7 said that a Singapore study has found that the COVID-19 vaccine provides about 69% protection against infection by the Delta variant of the coronavirus, regardless of symptoms. Citing the study by the National Centre for Infectious Diseases (NCID) and MOH, he said that the data also showed that the vaccine's protection against symptomatic disease is between 80 and 90%. NCID and MOH recently concluded a study of about 1,000 household contacts of COVID-19 cases between September 2020 and end-May this year. As of July 7, 39% of Singapore's population is fully vaccinated against COVID-19 according to MOH. Under the national vaccination programme, which uses the Pfizer-BioNTech and Moderna vaccines, about 5.9 million doses have been administered. In a separate press release, MOH said that the government will introduce differentiated safe management measures for vaccinated persons as Singapore's vaccination coverage continues to increase. This will allow individuals who have been fully vaccinated under the national vaccination programme to participate in more community and economic activities
- Cambodia's COVID-19 vaccination drive has got another boost after the country received a new batch of COVID-19 vaccine from China on Tuesday (July 6). As of July 5, 7.93 million vaccines had been administered, with 4.6 million people receiving their first dose and 3.33 million having completed two doses. The country has planned to vaccinate at least 10 million of its 16 million population by November.
- Philippine national government is expecting to receive about 30 million COVID-19 vaccine doses until August. A total of 3.02 million doses of Johnson & Johnson vaccines will be coming from the United States through the COVAX Facility, while 1.1 million doses of AstraZeneca vaccines from Japan will be arriving on Thursday. Vaccines donated by the US and Japan will be allocated for those in the A2 (senior citizens) and A3 (persons with comorbidities) categories. Meanwhile, Food and Drug Administration Director-General said that the country now has one vaccine brand that can be used on children, after it approved the amendment of Pfizer's emergency use authorization (EUA). The FDA earlier approved the use of Pfizer's COVID-19 vaccine for minors as young as 12 years old. Today, July 7, FDA said that Chinese company Sinovac has applied for an amendment to its EUA for children aged 3 to 17. FDA Director-General added that the country's vaccine experts are studying the matter and FDA may issue a decision within the month. As of July 5, 2.8 million Filipinos have received 2 doses of the COVID-19 vaccine, while over 8.8 million others have been inoculated with their first dose.

### **Travel Advisories** (new update/s)

- Laos: Those traveling to Champasack from red zones in provinces with community spread of COVID-19 must provide either a negative test for COVID-19 in the last 72 hours, or provide certification of having received two doses of vaccine. However, those traveling to Champasack Province from an area without community spread may enter the province as normal. Entry into villages designated as red zones will remain prohibited, except for persons authorized by the Taskforce or local authorities.

### Cases and Deaths as of 07 July 2021

- As of 07 July 2021 (2PM, GMT+8), worldwide, there were **185,709,189** confirmed cases, including **4,011,775** deaths. Globally, Case Fatality Rate (CFR) is **2.2**.
- In **China**, there were **118,980** confirmed cases with **5,554** deaths, including deaths in Hong Kong (212) and Taiwan (706). Confirmed cases in China include confirmed cases in Hong Kong (11,945), Macau (55), and Taiwan (15,088). **5,192,868 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **99,598 deaths**, with a CFR of **1.9**.

\*Beta coefficient of linear line of best fit; equal to the rate of change in the 7-day rolling average of new cases over the past 7 days (as of July 6, 2021)

# COVID-19 Vaccination Status

as of 6 July 2021

# Re-opening Tracker

as of 4 July 2021

ASEAN MEMBER STATE	REQUIREMENT					
	At least <b>80% of the high-risk population has been vaccinated</b> with at least one dose of a COVID-19 vaccine.		At least <b>65% of the total population has a level of immunity</b> to COVID-19; either recovered from COVID-19 or have been vaccinated with at least one dose of a COVID-19 vaccine.		<b>Case levels are generally low</b> (a 7-day rolling average number of daily new cases that is <10 cases per 100,000, with each day's past-14-day test positivity is consistently <5%).	
	% of High risk population with one dose	Projected Completion Date	% of Total population with one dose	Projected Completion Date	Daily cases/100,000	Test positivity last 14 days
