

# ASEAN Biodiaspora Virtual Center Brief Summary Mpox Situation Report

## GLOBAL & ASEAN REGION

November 12, 2024

With Support by:

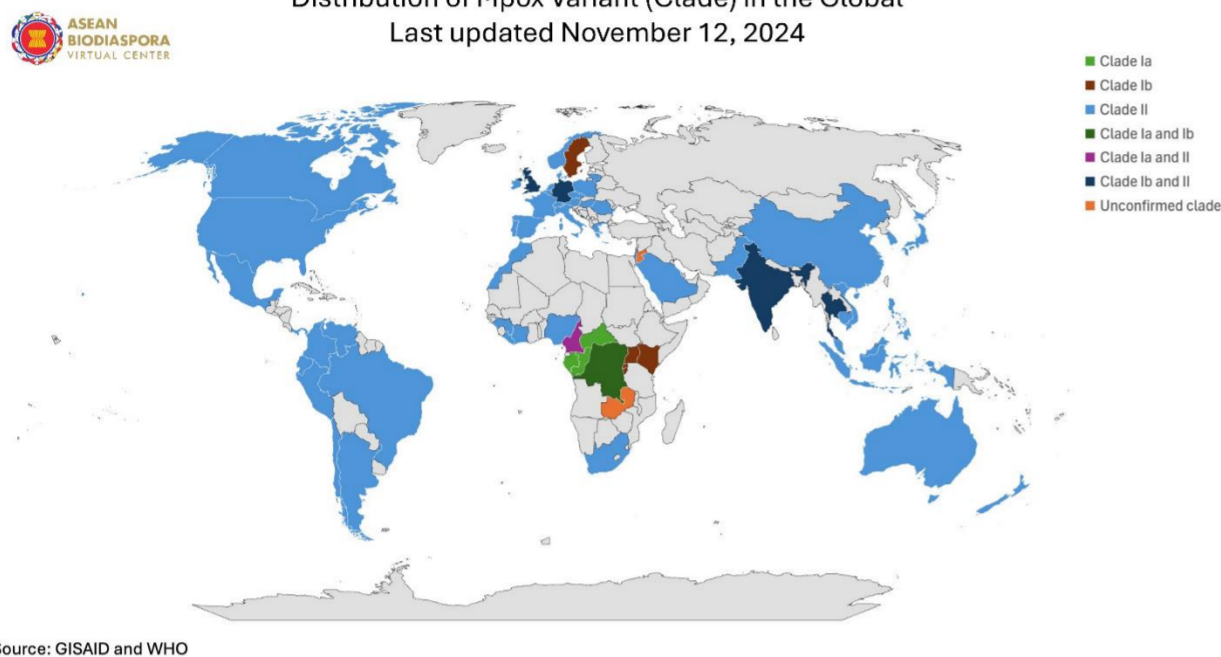

### GLOBAL

To date, 110,570 cases of mpox and 237 deaths (CFR=0.21%) have been reported from 124 countries with clade II remaining the predominant variant worldwide.

Four countries outside Africa have also reported severe clade Ib (Sweden, Thailand, Germany and the United Kingdom), with London, United Kingdom, reporting the first local transmission outside Africa with four cases occurred in one household after returning from African countries.
