

# COVID-19: Highlights and Situation Overview

## Global Update

- Worldwide, there have been over 160 million cases and more than 3 million deaths attributed to COVID-19.
- The World Health Organization (WHO) has now classified the coronavirus variant, known as B1617, as a variant of global concern with some preliminary studies showing that it spreads more easily. At a media briefing on May 10, Dr. Maria Van Kerkhove, the WHO's technical lead for COVID-19, said the group's experts have been meeting for the past few days to review as much data as possible about the B1617 variant. She said B1617 has three sub-lineages. Preliminary analysis suggests that it is more transmissible, part of what led the group to move it from a *variant of interest* to a *variant of concern* alongside B117, B1351, and P1. She said much more work is needed to look at B1617 sequences from India and other countries that have detected it, adding that lab studies to shed light on virus neutralization issues are needed, as well as epidemiologic studies to provide clues on how the variant behaves.

## Regional Update

- Philippines' Department of Health reported on May 11 that Philippines has detected its first two cases of a coronavirus variant B1617. The variant has been confirmed in two Filipino seafarers who returned in April from the United Arab Emirates and Oman.
- Hanoi (Vietnam) since May 11 ordered the closure of all beer parlors and the banned the gathering of more than 10 people in one place outside of public offices, schools, and hospitals. In addition, coffee shops, food courts, convenience stores, and eateries near COVID-19 outbreak areas such as the National Hospital for Tropical Disease in Dong Anh District have been ordered to temporarily shut down.
- First case of Indian COVID-19 variant, B1617, was reported in Thailand. The variant was detected in a Thai woman and her young son arriving from Pakistan, prompting authorities to consider widening the ban on international arrivals to other countries besides India.
- The alarming spike in the number of COVID-19 cases and the emergence of more dangerous variants from South Africa and India forced the Federal Government to impose another round of nationwide movement control order (MCO) starting today (May 12). Malaysia's Senior Minister assured the people that despite the enforcement of MCO 3.0, the economic sector would still be allowed to operate so as not to affect the livelihood of many. Some of the standard operating procedure that were put in place during MCO 2.0 have been tightened in view of the current pandemic situation and that the National Security Council's (NSC) technical committee will standardize the SOP to be used nationwide. On May 10, Prime Minister Tan Sri Muhyiddin Yassin announced that Malaysia would be under MCO from May 12 until June 7 in view of a "more critical and vicious third wave" of COVID-19 infections.

## Vaccine Update

- Brazil's Health Regulator, Anvisa, said on Tuesday (May 11) that it had suspended the use of the AstraZeneca COVID-19 vaccine in pregnant women after learning that a woman had died from a stroke in an incident seen as possibly related to the immunization. Anvisa said that the 35 years old woman, who died on May 10, was 23 weeks pregnant, adding that it had not been informed of any other adverse events involving pregnant women.

- Study at Bangkok's Chulalongkorn University have confirmed the efficacy of both the Sinovac and AstraZeneca COVID-19 vaccines. Thai virologist said both vaccines proved successful at stimulating an immune response against COVID-19. The tests were carried out as part of a study done by the University's Centre of Excellence in Clinical Virology. He added that people given the first dose of AstraZeneca showed over 98% immunity to COVID-19, while those who had received 2 doses of the Sinovac vaccine showed immunity of over 99%. People who had already been infected with COVID-19 showed immunity of over 92%, but he also warned that this does not rule out re-infection.
- Bangkok health officials plan to vaccinate 5 million Bangkok residents within the next 2 months in an effort to reach herd immunity. So far, only 5% of Bangkok residents have been vaccinated against COVID-19. The Public Health Ministry has set a goal to administer 100,000 doses each day in Bangkok with areas of the Bang Sue Railway Central Station to be used as a vaccination hub. Only those 18 and older in Bangkok are eligible for a vaccine. According to the chairperson of the government's sub-committee on vaccination management, Sinovac and AstraZeneca vaccines will be used in Bangkok's mass vaccination campaign. Meanwhile, the government expects more vaccine deliveries this month including 2.5 million doses of the Sinovac vaccine and 1.7 million doses of the AstraZeneca vaccine.

#### **Travel Advisories** (new update/s)

- Thailand: Non-Thai nationals arriving from Pakistan, Bangladesh, and Nepal are now included in an entry ban. The ban was first introduced for arrivals from India late last month and has now been extended to 3 other South Asian nations as the government tries to guard against importing the highly contagious B1617 variant.
- Malaysia: The interstate and inter-district travel ban continues during the nationwide MCO. The passenger limit in private vehicles, taxis and e-hailing vehicles is three per car including the driver, while public transport services are allowed to operate based on capacity with operating hours subject to licence conditions. Movement between MCO areas is allowed for emergency purposes and with police permits. In addition, travellers entering Malaysia from Singapore under the Periodic Commuting Arrangement (PCA) scheme must undergo a compulsory 14-day quarantine at government-approved facilities starting Thursday (May 13). Health Director-General said that the decision was made by the Malaysia National Security Council based on reports by Singapore's Ministry of Health where reports indicates the presence of coronavirus variants from South Africa, the United Kingdom, Brazil and India.

#### **Cases and Deaths as of 12 May 2021**

- As of 12 May 2021 (2PM, GMT+8), worldwide, there were **160,650,333** confirmed cases, including **3,333,395** deaths. Globally, Case Fatality Rate (CFR) is **2.1**.
- In **China**, there were **103,855** confirmed cases with **4,858** deaths, including deaths in Hong Kong (210) and Taiwan (12). Confirmed cases in China include confirmed cases in Hong Kong (11,813), Macau (49), and Taiwan (1,210).
- **3,602,253 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **71,670 deaths**, with a CFR of **2.0**.
