

COVID-19: Highlights and Situation Overview

Global Update

- Worldwide, there have been over 162 million cases and more than 3 million deaths attributed to COVID-19.
- The number of recorded COVID-19 infections in India climbed above 24 million on Friday (May 14) amid reports that the highly transmissible coronavirus mutant first detected in the country was spreading across the globe. People infected by the variant included travellers in Panama and Argentina who had arrived from India or Europe. In the Caribbean, cases of the B1617 variant have been detected in Aruba, Dutch St Maarten and the French department of Guadeloupe. According to the WHO infectious diseases expert, the B1617 variant of the virus has been found in cases in eight countries of the Americas, including Canada and the United States. Public Health England also said that the total number of confirmed cases of the variant had more than doubled in the past week to 1,313 across the United Kingdom. Meanwhile, two states in India, Karnataka and Maharashtra have announced that they will temporarily suspend vaccination for people aged between 18 and 44 as they prioritize those over 45 who need their second doses. As of Thursday, the country had fully vaccinated over 38.2 million people, or about 2.8% of a population of about 1.35 billion.

Regional Update

- On Thursday (May 13), Singapore reported 24 new COVID-19 community cases among 34 new cases reported. It was the highest number of community cases since July 11, 2020. Singapore's Ministry of Health said that the number of new cases in the community has increased from 48 cases in the week before to 71 cases in the past week. The number of unlinked cases in the community has increased from 7 cases in the week before to 15 cases in the past week. Meanwhile, Singapore's Health Minister Gan Kim Yong said on Friday (May 14) that to speed up the detection of COVID-19 cases, rapid antigen testing (ART) will be conducted on all individuals who seek treatment with symptoms. This is on top of Polymerase Chain Reaction (PCR) tests that are being conducted on all people with possible COVID-19 symptoms such as fever, acute respiratory infection (ARI) symptoms, or the loss of smell or taste. The additional testing will apply to all individuals with such symptoms who go to Public Health Preparedness Clinics with the Swab and Send Home programme, polyclinics, emergency departments and regional swab centers. He added that both the ART and PCR tests will be funded by the Government for all who present themselves with ARI symptoms. The decision comes amid the recent rise in COVID-19 cases within the community, some unlinked cases, clusters at Changi Airport and Tan Tock Seng Hospital, as well as cases reported in schools. With more cases reported in the country, Singapore has tightened its rules to avoid further spread of COVID-19. Under the new restrictions, people will be allowed out in groups of only two from starting this Sunday (May 16) until June 13. Households will also not be allowed to receive more than two distinct visitors per day. Individuals should continue to cap their social gatherings at two a day as well. Eateries and hawker centers will offer only takeaway and delivery during this period to reduce the risk of transmission, due to the higher risk posed by customers in close proximity and dining in for prolonged period with their masks off. Working from home will once again be the default for workplaces, and employers have to ensure that staff who can work from home do so. Apart from the prohibition on dining in, other activities that will no longer be allowed including strenuous indoor exercise classes and sports, as well as personalized services such as facials that require masks to be removed.

- In Vietnam, Hanoi authorities ordered the suspension of all physical and sports activities in public including golf courses from May 13. Da Nang also banned the gathering of more than five people in public and outside of offices and schools and Ho Chi Minh City will re-establish 12 COVID-19 checkpoints at the entrances of the city from May 15.
- In Philippines, Metro Manila, Bulacan, Cavite, Laguna, and Rizal (also known as the "NCR plus") have been placed under a general community quarantine (GCQ) but with "heightened restrictions" starting May 15 to May 31. Religious gatherings and gatherings for necrological services, wakes, inurnment and funerals for those who died of causes other than Covid-19 in NCR Plus shall be allowed up to 10% of the venue capacity. Also allowed in GCQ areas with heightened restrictions are non-contact sports in outdoor contact sports, games, scrimmages; and personal care services that allow for services not requiring mask removal, such as salons, parlors, beauty clinics, at 30% capacity.

Vaccine Update

- Vietnam is seeking 31 million doses of the COVID-19 vaccine jointly developed by Pfizer and BioNTech in 2021. By the end of 2021, Vietnam expects to receive a total of 110 million doses of COVID-19 vaccines, including those of Pfizer/BioNTech, 30 million from AstraZeneca and 38.9 million doses via the COVAX scheme. Vietnam had made a request for an additional 10 million doses under the COVAX initiative. The health ministry also said on Friday (May 14) that the government was also in talks to purchase the COVID-19 vaccine from German biotech firm, CureVac.

Travel Advisories (new update/s)

- Singapore: Singapore Transport Minister Ong Ye Kung said on Friday (May 14) that Singapore will "critically review" the start date of the air travel bubble between Singapore and Hong Kong, given Singapore's rising number of COVID-19 cases. Under the terms of the agreement, the Singapore, Hong Kong travel bubble will be suspended for at least 14 days if the seven-day moving average of unlinked local COVID-19 cases a day, excluding dormitory resident cases in Singapore. Meanwhile, according to the Ministry of Health (MOH) on May 13, travellers with recent travel history to Vietnam will have to serve a 21-day stay-home notice at dedicated facilities. MOH added that the change is due to a "recent increase" in COVID-19 cases reported by Vietnam, and takes place with immediate effect. Travellers who have not completed their 14-day stay-home notice at a dedicated facility by 11.59PM on May 15 will have to serve the additional seven days at their current facility and will be contacted regarding the additional costs to be paid.
- Brunei: Royal Brunei Airlines (RB), the national carrier of Brunei Darussalam, joins a growing list of airlines around the world to trial the IATA Travel Pass app developed by the International Air Transport Association (IATA). The mobile app enables airline's guests to securely and conveniently verify that they meet COVID-19 health requirements for their journey proof. With the app, guests will also be able to create a digital health credential which will link guests' test results, proof of vaccination and travel information to their verified identity. The app also aims to pre-validate travellers prior to arrival at airports in order to make airline and security processes faster.
- Philippines: On the heightened restrictions in the NCR Plus, Presidential spokesperson said that "only essential travel into and out of the NCR Plus shall be allowed. Public transportation shall remain operational at such capacities and protocols in accordance with the Department of Transportation guidelines. Interzonal travel from NCR Plus areas, except those conducted by Authorized Persons Outside Residence (APORs), shall remain prohibited in GCQ areas with heightened restrictions.

Cases and Deaths as of 14 May 2021

- As of 14 May 2021 (2PM, GMT+8), worldwide, there were **162,038,221** confirmed cases, including **3,356,947** deaths. Globally, Case Fatality Rate (CFR) is **2.1**.
- In **China**, there were **103,931** confirmed cases with **4,858** deaths, including deaths in Hong Kong (210) and Taiwan (12). Confirmed cases in China include confirmed cases in Hong Kong (11,818), Macau (49), and Taiwan (1,256).
- 3,639,268 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **72,261 deaths**, with a CFR of **2.0**.

COVID-19 Epi curve among ASEAN Countries

as of 13 May 2021

7-Day Rolling Average of COVID-19 new cases

as of 13 May 2021

ASEAN Country	New Cases Rate of Change 7-Day Window*	P value
Brunei	-0.036	0.154
Cambodia	-42.388	0.001
Indonesia	-13.316	0.668
Lao PDR	-3.041	0.001
Malaysia	145.235	0
Myanmar	0.913	0.002
Philippines	-131.403	0
Singapore	0.056	0.859
Thailand	46.643	0.13
Vietnam	10.362	0

*Beta coefficient of linear line of best fit; equal to the rate of change in the 7-day rolling average of new cases over the past 7 days
