

COVID-19 Situational Report in the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of May 19, 2021

COVID-19: Highlights and Situation Overview

Global Update

- Worldwide, there have been over 165 million cases and more than 3 million deaths attributed to COVID-19.
- India's total COVID-19 caseload surged past 25 million on Tuesday (May 18) with 263,533 new infections over the past 24 hours. A powerful cyclone complicated the health crisis in the western states of Gujarat and Maharashtra, already among the hardest hit by a second wave of the pandemic. Gujarat have exacerbated efforts to tackle the pandemic with vaccinations suspended and hospitals awaiting back-up generators to keep power running and additional oxygen supplies. Meanwhile, COVID-19 tests were administered to around 200,000 people evacuated from coastal districts of Gujarat before the cyclone struck late on Monday and efforts were being made to try to limit any spread of infections.

Regional Update

- Malaysia reported a record daily number of COVID-19 fatalities on Tuesday (May 18) with 47 deaths, bringing the national death toll since the start of the pandemic to 1,994. Malaysia's two previous records for daily COVID-19 fatalities were recorded in the last week – 44 deaths on May 15 and 39 deaths on May 12. In the health ministry's weekly report for the period of May 9 to May 15, the authorities noted a 53.7% increase in daily COVID-19 deaths compared to the previous week. As of Tuesday (May 18), Malaysia has logged a total of 479,421 COVID-19 cases. A total of 44,827 of these are currently classified as active or infectious cases, with 531 patients in the intensive care unit (ICU). Of these, 277 require respiratory support. The figures from the ministry show that the number of people in the intensive care unit has increased by 30.4%, with 25% more patients requiring respiratory support. The health director-general also said on May 18 that ICUs were at 89% capacity in the Klang Valley and 74% nationwide. The number of new infections also increased by 15.9%. In addition, 19 new clusters were identified where 7 of these involve workplaces, 5 stemmed from religious activities, 4 other clusters in the community while 3 from education institutions.
- The Singapore government said on May 18 that the new mutations of coronavirus, particularly the B.1.167 COVID variant, were affecting younger children and it would shut all schools starting Wednesday (May 19). Authorities in Singapore said that primary and secondary schools, as well as junior colleges, would shift to full home-based learning from starting today until the end of the school term on May 28. Singapore's Health Minister said in a press briefing that the strain, B.1.167, "appears to affect children more". However, there is no official confirmation at this stage on how many children have been affected by B.1.167 variant in Singapore.
- According to Indonesia's Health Minister, the Indonesian government is preparing for a spike in COVID-19 cases after an annual exodus of thousands of people in their hometowns for Idul Fitri. He noted that there was an increase in COVID-19 cases after the previous holidays wherein the increase in cases following public holidays was between 30% to 90%. Meanwhile, Coordinating Minister for Economic Affairs said that even though the situation is considered under control, 15 provinces have seen an increase in active cases such as in North Sumatra, West Sumatra and Riau. The same applies for Jakarta.

Vaccine Update

- According to Singapore's Health Minister during the COVID-19 multi-ministry task force press conference on Tuesday (May 18), the interval between the first and second doses of the COVID-19 vaccine will be extended to between six and eight weeks, up from the current three to four weeks interval. The new interval will apply to people who are registering for their vaccination dates starting Wednesday (May 19) while those who already have an appointment for their second dose will not be affected. Explaining how it worked, the Health Minister said that when the demand for the second dose is pushed back, the vaccine dosage is freed up for more people to take their first dose. He added that if all goes "smoothly" with the new strategy, about 4.7 million individuals in Singapore would get at least the first dose by August. The Health Minister also said that the approach was adopted in consultation with the Expert Committee on COVID-19 Vaccination which had studied scientific evidence globally in clinical trials and real-world roll-out of these vaccines. The committee suggested that the maximum interval between the Pfizer BioNTech and Moderna mRNA COVID-19 vaccines being used in the country can be extended to up to eight weeks to maximize vaccine coverage "without materially impacting the eventual overall immune response, as long as the second dose is eventually administered". Meanwhile, the Pfizer-BioNTech COVID-19 vaccine has been authorized by Singapore's Health Sciences Authority (HSA) to be used for children between 12 and 15 years which was previously administered only to age 16 years and above. On May 18, the Health Minister said that the expert committee on COVID-19 vaccination has also "weighed in with their endorsement" to use the vaccine for children aged 12 to 15 years. The team have also assessed that Pfizer-BioNTech COVID-19 vaccine demonstrates high efficacy and safety for age group of 12 to 15 years old, which is consistent with what have been observed for the adult population.
- Vietnam is expected to receive 31 million COVID-19 vaccine doses developed by US-based firm Pfizer in the second half of 2021. The Ministry of Health has also negotiated with other COVID-19 vaccine manufacturers such as AstraZeneca, Moderna, Gamelaya with the goal of having enough COVID-19 vaccines to serve the country. The country began its COVID-19 inoculation drive on March 8, using the AstraZeneca vaccine from the UK. More than one million shots were given to frontline medical workers and members of community-based anti-COVID-19 groups as of 4PM on May 18. Currently, four Vietnamese vaccines are under development, produced by Nagogen Pharmaceutical Biotechnology JSC, the Institute of Vaccines and Medical Biologicals (IVAC), Vaccine and Biological Production Company No. 1 (Vabiotech) and the Center for Research and Production of Vaccines and Biologicals (Polyvac).

Travel Advisories (new update/s)

- Indonesia: The head of the COVID-19 mitigation and national economic recovery committee said that a random test will be imposed on travellers from regions in Java who wish to enter Jakarta. Travellers from Sumatra would also need to undergo a mandatory check when crossing to Java.

Cases and Deaths as of 19 May 2021

- As of 19 May 2021 (2PM, GMT+8), worldwide, there were **165,195,022** confirmed cases, including **3,420,021** deaths. Globally, Case Fatality Rate (CFR) is **2.1**.
- In **China**, there were **105,030** confirmed cases with **4,860** deaths, including deaths in Hong Kong (210) and Taiwan (14). Confirmed cases in China include confirmed cases in Hong Kong (11,827), Macau (49), and Taiwan (2,260).

- **3,729,696 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **73,934 deaths**, with a CFR of **2.0**.

COVID-19 Epi curve among ASEAN Countries

as of 18 May 2021

7-Day Rolling Average of COVID-19 new cases

as of 18 May 2021

ASEAN Country	New Cases Rate of Change 7-Day Window*	P value
Brunei	-0.031	0.012
Cambodia	-24.536	0
Indonesia	-296.311	0.001
Lao PDR	-0.265	0.688
Malaysia	29.929	0.102
Myanmar	0.49	0.166
Philippines	-104.102	0
Singapore	2.342	0
Thailand	290.495	0.005
Vietnam	9.398	0

*Beta coefficient of linear line of best fit; equal to the rate of change in the 7-day rolling average of new cases over the past 7 days
