COVID-19: Highlights and Situation Overview

Global Update

- Worldwide, there have been over 172 million cases and more than 3 million deaths attributed to COVID-19.
- World Health Organization (WHO) on May 31 has announced that it had a new naming system for SARS-CoV-2 "variants of concern" and "variants of interest". Every virus variant will have a name based on the Greek alphabet, such as "Alpha," "Beta" or "Gamma," in an effort to help the public talk about the variants more easily without reverting to identifying them by the countries in which they were first identified. The new names don't replace the existing scientific number-and-letter combinations, which will still be used in research, but the change should make it simpler for non-scientists to talk accurately and sensitively about variants. To avoid the stigmatization and to simplify public communications, WHO encourages national authorities, media outlets and others to adopt these new labels. Under the new system, the B.1.1.7 variant, first identified in the United Kingdom, will be known as "Alpha," the B.1.351 variant first detected in South Africa will be "Beta," the P.1 variant found in Brazil will be "Gamma" and the B.1.617.2 variant currently associated with India will be "Delta." In addition to simplifying scientific language for laypeople, moving away from place-specific language avoids placing blame on a country for first detecting a variant there or stigmatizing a group of people by associating them with an infectious disease, an old practice used in naming diseases such as in the Spanish Flu and Middle East Respiratory Syndrome, are now being discouraged by public health experts.

Regional Update

- Thailand's government has reversed a decision by authorities in its capital Bangkok to ease some COVID-19 restrictions. The Bangkok Metropolitan Administration (BMA) late on Monday (May 31) said the national COVID-19 taskforce had overruled the city's move to allow massage shops, clinics and parks to reopen from Tuesday (June 1). Massage shops, clinics and public parks must remain closed along with schools, cinemas, gyms and zoos for at least 14 more days.
- Philippines' President announced on Monday (May 31) that the country will extend its COVID-19 measures in the capital and nearby provinces until mid-June to contain infections that have been decreasing. Religious gatherings remain limited at 30% of venue capacity while dining in restaurants can operate at 20% capacity until June 15.
- Singapore's Ministry of Health (MOH) said on late Monday (May 31) that all household members of people under quarantine have to self-isolate at home and minimize social interactions until the person under quarantine receives a negative COVID-19 polymerase chain reaction (PCR) test result. The minister added that based from experience, new variant strain is infectious that it tends to circulate very quickly among household members.

Vaccine Update

- The World Health Organization on Tuesday (June 1) approved the Sinovac COVID-19 vaccine for emergency use, the second Chinese jab to receive the WHO's green light. The WHO said the emergency use listing (EUL) gives countries, funders, procuring agencies and communities assurance that the vaccine has met international standards. Last month Sinopharm became the first Chinese vaccine to

be approved by the WHO. The organization has also given EUL status to vaccines being made by Pfizer/BioNTech, Moderna, Johnson & Johnson, and the AstraZeneca vaccines being produced in India, South Korea and the EU, which it counts separately.

- Duopharma Biotech's wholly-owned subsidiary Duopharma has signed a deal with Malaysia to supply Russia's Sputnik V COVID-19 vaccine. The company has "concluded execution of separate definitive supply agreements" with the Malaysian government and a subsidiary of the Russian Direct Investment Fund (RDIF) for the supply of 6.4 million doses of the Sputnik V vaccine in the country.
- Thailand's Public Health Minister said on Tuesday (June 1) that AstraZeneca has confirmed that it will deliver 6 million doses of its COVID-19 vaccine this June after submitting documentation to the Department of Medical Sciences for vaccine quality inspection. Locally made AstraZeneca vaccines will be available at vaccination units from June 7 as per the original schedule. Meanwhile, the Department of Disease Control said the first lot of 240,000 AstraZeneca doses will be sent to 58 provinces by today, June 2. The next lot of 350,000 doses will be sent to the other 19 provinces including Bangkok, Nonthaburi, Pathum Thani, Ayutthaya, Lopburi, Saraburi, Singburi, Ang Thong, Kanchanaburi, Nakhon Pathom, Phetchaburi, Ratchaburi, Samut Songkram, Samut Sakhon, Chachoengsao, Chonburi, Prachinburi, Rayong and Samut Prakanin in the next two weeks.

Travel Advisories (new update/s)

- Vietnam: Vietnam's aviation authority said on Wednesday (June 2) that the country will resume incoming international flights to Hanoi and Ho Chi Minh City effective immediately.
- Philippines: The country's President extended the ban of inbound travel from India, Pakistan, Sri Lanka, Bangladesh, Nepal, Oman, and the United Arab Emirates until June 15 to prevent transmission of the coronavirus variant first discovered in India that is circulating widely in these countries. Travellers coming directly from these countries, or with a history of travel to any of them within the last 14 days, will be denied entry in the country.
