# COVID-19: Highlights and Situation Overview

## Global Update

- Worldwide, there have been over 169 million cases and more than 3 million deaths attributed to COVID-19.

## Regional Update

- Malaysia on Thursday (May 27) reported a record number of new COVID-19 cases for the third straight day, with 7,857 new cases. The Klang Valley area accounted for about 40% of the new cases, with 2,675 cases in Selangor and 561 cases in Kuala Lumpur. The health ministry said that the majority of current COVID-19 patients are those in the younger age group of 20 to 40. Most of these cases are "sporadic", with no clear source of infection. Malaysia has set records for the highest number of new daily COVID-19 cases six times in the past nine days, with the daily count above the 6,000 mark since May 19. As of May 27, Malaysia reported a total of 541,224 COVID-19 cases, of which 69,408 are classified as active or infectious. Meanwhile, Sarawak decided to impose the two-week MCO until June 11 as the state's health facilities were at a critical level from the spike in COVID-19 cases and the detection of variants of concern. People in Sarawak will not be allowed in public spaces from 10PM to 5AM without a good reason during the statewide movement control order (MCO) which comes into effect on Saturday (May 29). According to an infographic of standard operating procedures (SOPs) released by the state Public Communications Unit on Friday (May 28), people may go out for medical treatment and to get food supplies, daily necessities, medication and dietary supplements. They can also go out to get their COVID-19 vaccination.
- Vietnam's Ho Chi Minh City authorities have ordered the suspension of most non-essential activities starting today (May 28) due to the increasing number of cases. These include restaurants, beauty parlors, barbers, spas, tourism sites, museums, walking streets, night markets, and parks. Homestay and Airbnb services are also suspended until further notice while religious activities with 10 or more people and other institutions are also suspended. Restaurants that do operate will only be allowed takeaway and delivery services. As of May 28, 2021, Vietnam's Ministry of Health confirmed a total of 6,316 cases of COVID-19. 2,853 of which have recovered and has been discharged from hospitals. Vietnam has also recorded 46 deaths due to the pandemic. The latest community transmission cases have been reported from Bac Giang, Lang Son, Thai Binh, and Long An.

## Vaccine Update

- The Philippines' head of Food and Drugs Administration said that it will allow the Pfizer and BioNTech COVID-19 vaccine for emergency use in children aged 12-15 to widen the number of people in the country that will be protected against COVID-19. Pfizer-BioNTech's COVID-19 vaccine is one of the seven brands of coronavirus shots allowed for emergency use in the Philippines.
- Thailand's Food and Drug regulator on Friday (May 28) approved emergency use the COVID-19 vaccine developed by China's Sinopharm. As of May 25, Thailand has administered 3.02 million doses of vaccines. The country plans to roll out a mass inoculation campaign next month and aims to vaccinate 70% of its nearly 70 million population by the end of the year.
- Indonesia's Food and Drug Agency (BPOM) said on May 27 (Thursday) that the country has resumed usage of a temporarily suspended batch of AstraZeneca's COVID-19 vaccine. The agency suspended use of one batch of the vaccine to conduct an investigation wherein

a young man died after being inoculated earlier this month. BPOM added that according to test results, it can be concluded that there was no relation between the quality of COVID-19 vaccine batch number CTMAV547 with the post immunization event reported.

- Daily figures from Malaysia's Special Committee on COVID-19 Vaccine Supply (JKJAV) shows that a total of 107,340 vaccine jabs were administered up to midnight Thursday (May 27). Of that number, 58,084 were for the first dose of the vaccine and the remaining 49,256 for the second dose. This brings the total cumulative vaccine doses administered in the country as of May 27 to 2,711,421.
