The variant B.1.617 was detected in an Indian national screened at the Kuala Lumpur International Airport. To date, Malaysia has seen 48 cases of the B.1.351 variant from South Africa, 8 cases of the B.1.1.7 variant from the United Kingdom, and 2 cases of the B.1.525 variant from Nigeria.

Travel Advisories (new update/s)

- Malaysia: A cross-border travel scheme facilitating trips between Malaysia and Singapore for compassionate reasons such as death and visits to loved ones who are critically ill is set to begin on May 17. This was confirmed in a joint statement on Sunday (May 2) by Singapore's Minister of Foreign Affairs and his Malaysian counterpart. Details of the procedures and entry requirements will be released by the respective authorities of each country, namely the Department of Immigration of Malaysia and the Immigration & Checkpoints Authority of Singapore (ICA)
- Singapore: All travelers to Singapore starting May 2, 11.59PM (Singapore time), who have a history of travel to Thailand 14 days prior to arrival in Singapore, will now be required to serve their 14-day Stay-Home Notice (SHN) at dedicated SHN facilities. The announcement by Singapore's Ministry of Health will be applied to Singapore citizens, permanent residents and long-term pass holders.
- Thailand: The Civil Aviation Authority of Thailand has issued new guidance for airlines and passengers, after passengers on 7 flights, operated by 3 different airlines, subsequently tested positive for COVID-19. Phuket's Centre for COVID-19 Situation Administration has ordered airlines to contact other passengers and tell them to get tested and to self-isolate. In this new guidelines, airlines should limit services between 11PM and 4AM in order to reduce the impact on passengers travelling between the airport and their accommodation, as well as being in line with available public transport. Airlines must also consider appropriate arrangement of seats in the aircraft for the number of passengers on each flight, taking into account social distancing to avoid congestion.
