

COVID-19 Situational Report in the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of May 31, 2021

Canada

COVID-19: Highlights and Situation Overview

Global Update

- Worldwide, there have been over 171 million cases and more than 3 million deaths attributed to COVID-19.

Regional Update

- Malaysia's Prime Minister announced on Friday (May 28) night that the country will close all economic and social sectors by implementing a "total lockdown" throughout the country. The first phase of the lockdown will start on June 1 to June 14. The statement issued by Prime Minister's Office (PMO) said that only essential economic and service sectors listed by the National Security Council will be allowed to operate during Phase 1 of the lockdown. The decision was made after taking into account the current situation of COVID-19 transmission in Malaysia with daily case numbers exceeding 8,000 and active cases exceeding 70,000. Starting June 1, only two people from each household are allowed to go out to buy essentials or seek medical services, with movement limited to a 10km radius from their residence. The Senior Minister said that for those working in the public sector, only a capacity of 20% is allowed to be in the office for necessary tasks that cannot be done remotely and this does not include frontliners, as well as security and defense personnel while the attendance capacity for employees in private sectors of essential services, which includes operations and management, is limited to 60%. If the phase 1 total lockdown is successful in reducing daily COVID-19 cases, the government will implement a four-week phase 2 lockdown by allowing the reopening of a few economic sectors that do not involve large gatherings. Once the phase 2 lockdown ends, the next step is phase 3, which is implementing a movement control order (MCO) similar to the current one in effect, where social activities are not allowed and nearly all economic sectors are allowed to operate subject to strict standard operating procedures and limited physical presence at workplaces. However, the decision to move from one phase to the next will be subject to the health ministry's risk assessment, and will be based on the daily caseloads and the hospitals' capacity to treat COVID-19 patients. The government said it will ensure the Malaysian public health system will not crumble and that support and assistance will be given to the health ministry to increase hospital capacity. As a result of the government's decision to execute full economic and social shutdown, the finance ministry will detail assistance packages for the people and affected economic sectors.
- Vietnam's Health Minister said on Saturday (May 29) that the country has detected a new variant of the coronavirus, a mix of the COVID-19 variants from India and the United Kingdom that spreads quickly by air. Vietnam had previously reported seven virus variants: B1222, B1619, D614G, B117 (the variant from the UK), B1351, A231 and B16172 (the variant from India). The Minister added that laboratory cultures of the new variant, which is much more transmissible than the previously known types, revealed that the virus replicated itself very quickly, explaining why so many new cases appeared in different locations in the country in a short period of time. In addition, according to a government official on Sunday (May 30), Vietnam's business hub Ho Chi Minh City will begin social distancing measures for 15 days starting from May 31 in an effort to curb the spread of COVID-19. The official added that the city has seen a spike in cases related to a religious mission that has recorded at least 125 positive tests, accounting for most of the city's infections. All events that gather more than 10 people in public are banned city-wide, however, the city is considering to lower the number of people to just five.

- Thailand's Bangkok City officials are loosening restrictions in the capital and are allowing 5 types of venues to reopen tomorrow (June 1) while other venues under the closure order must remain closed at least until June 14. Bangkok remains the epicenter in the country with 1,356 cases reported today and 41,573 infections over the past couple months in the latest wave of COVID-19 sweeping through the country. Most of the recent infections have been concentrated in crowded areas such as construction camps, prisons, markets, and settlements.

Vaccine Update

- Singapore accelerates national COVID-19 vaccination programme wherein students will be the next group to be inoculated with vaccines. In a televised speech today (May 31), the Prime Minister said that bookings for student vaccinations will open on Tuesday (June 1), with priority given to the graduating cohorts for O-Levels, N-Levels, and A-Levels, as well as special needs students. This will then be followed by other students aged 12 years and over, including students in institutions of higher learning. After the students, Singapore will vaccinate the final remaining group (adults aged 39 years and younger) on mid-June. When it comes to Singapore's elderly population, the Prime Minister said that their response has been "excellent". Nearly three-quarters of Singapore's elderly people – about 760,000 senior citizens aged 60 and above – have had at least one jab or booked a slot already. However, he noted that about 280,000 elderly people have yet to book appointments and urged them to do so as soon as possible. According to the Prime Minister, the government has plans to make the vaccination process "even more convenient" for elderly people where people above 60 years old can now walk into any vaccination center and get vaccinated on the spot. There will be no need to register or book an appointment in advance.
- Thailand's The Department of Disease Control has set a goal to vaccinate at least 70% of Bangkok residents by July. The department will focus on the capital city and prioritize distribution of vaccines to other provinces based on how severe outbreaks are in the area. The DDC chief commented that the department will focus on Bangkok, speculating that if they can't control the COVID-19 situation in the capital city, they won't be able to control it nationally. Meanwhile, local vaccine registration for each province will be launched on June 14 and residents can sign up for their vaccine via health volunteers, local hospitals, or through a mobile app. While the government is still waiting for the delivery of AstraZeneca vaccines, provincial public health officers are preparing for the June 7 mass vaccination drive launch date. It was decided that vaccine allocations for each province will now be adjusted weekly instead of monthly. Provinces with outbreaks can prioritize residents in the affected area, while provinces with few COVID-19 infections can prioritize vaccines for the elderly and at-risk people in their community. The DDC plans to have 50 million vaccines available before September, and overall expect to meet the Prime Minister's goal of 150 million doses of AstraZeneca, Sinovac, Pfizer, and Johnson & Johnson vaccines. AstraZeneca is scheduled to send about 36 million doses between June and September, with the rest currently planned to be from Sinovac. Next week, the DDC expects to supply 400,000 vaccines for people to receive their second shot, with priority for prison staff, industrial workers, and teachers.

Travel Advisories (new update/s)

- Vietnam: Authorities in several provinces have suspended transport services bound for Ho Chi Minh City starting today (May 31) following social distancing measures imposed in the city.

Cases and Deaths as of 31 May 2021

- As of 31 May 2021 (2PM, GMT+8), worldwide, there were **171,345,349** confirmed cases, including **3,559,520** deaths. Globally, Case Fatality Rate (CFR) is **2.1**.
- In **China**, there were **111,121** confirmed cases with **4,955** deaths, including deaths in Hong Kong (210) and Taiwan (109). Confirmed cases in China include confirmed cases in Hong Kong (11,838), Macau (51), and Taiwan (8,160). **4,003,770 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **78,515 deaths**, with a CFR of **2.0**.

COVID-19 Epi curve among ASEAN Countries

as of 30 May 2021

7-Day Rolling Average of COVID-19 new cases

as of 30 May 2021

ASEAN Country	New Cases Rate of Change 7-Day Window*	P value
Brunei	0.03	0.034
Cambodia	24.49	0
Indonesia	80.98	0
Lao PDR	-1.50	0.01
Malaysia	229.31	0
Myanmar	4.58	0.001
Philippines	194.44	0.011
Singapore	-1.15	0.003
Thailand	79.32	0.017
Vietnam	16.40	0.003

*Beta coefficient of linear line of best fit; equal to the rate of change in the 7-day rolling average of new cases over the past 7 days
