

COVID-19: Highlights and Situation Overview

Global Update

- Worldwide, there have been over 174 million cases and more than 3 million deaths attributed to COVID-19.
- India reported 114,460 new COVID-19 infections on Sunday (June 6), the lowest in two months, while the COVID-19 related deaths increased by 2,677. Meanwhile, some of India's states are easing lockdown restrictions as COVID-19 infections subside. The national capital territory of Delhi was among those relaxing restrictions and will allow shops to open on alternate days. Shops with even numbers will open on one day while those with odd numbers will open the next day. Private offices will also now be allowed to operate at 50% of normal staffing levels. Delhi Metro will also resume services at 50% capacity.

Regional Update

- Malaysia reported 6,241 new COVID-19 cases on Sunday (June 6) as the number of patients in the intensive care unit hit a record for 13th consecutive day. Selangor accounted for about a third of the new infections with 2,178 cases. There were 415 infections in Kuala Lumpur and 565 in Johor. Sarawak and Sabah reported 600 and 305 cases respectively. Thirty new clusters were also identified, another new record, taking the total number of active clusters in the country to 713. Eighteen of the new clusters are linked to workplaces, seven are in the community while two from education institutions. The remaining three clusters have been traced to a "high-risk group", a religious gathering and a detention centre. As of Sunday, Malaysia has reported a total of 616,815 COVID-19 cases, of which 86,628 are currently active or infectious. There have also been 3,378 fatalities since the start of the pandemic.

Vaccine Update

- The Philippines' official said that the government will open up its vaccination drive this week to include around 35 million people working outside their homes, such as public transport staff, in a bid to help curb COVID-19 transmission and to open up the economy. Presidential spokesman said that those eligible to join the new phase, which includes workers in the informal sector, will be able to register from Wednesday (June 9), with the country expecting more vaccines to arrive in the second half of the year. The Philippines has so far received more than 9 million doses, mostly supplied by China's Sinovac Biotech.
- Thailand has started its long-awaited mass vaccination campaign on Monday (June 7). The government aims to administer 6 million doses of locally-made AstraZeneca and imported Sinovac vaccines this month. The government plans to vaccinate 70% of Thailand's population of more than 66 million people by the end of the year and so far, 2.8 million people deemed most vulnerable, frontline health and transport workers, have received a first dose.
- Malaysia will take part in phase three clinical trials for a new COVID-19 vaccine manufactured by China's Shenzhen Kangtai Biological Products. According to the Health Director-General on Saturday (June 5), the clinical study will be conducted at eight research centers in Malaysia. It aims to involve 3,000 adults aged 18 years old and above and that the study is expected to take 15 to 19 months. Apart from Malaysia, other countries involved in the clinical study are Colombia, Argentina, Pakistan, the Philippines and Ukraine. The vaccine was also approved by China through its Emergency Use Approval on May 14. Meanwhile, there have been a total of 3,574,376 doses of COVID-19 vaccine administered in Malaysia to date. On Monday (June 7), Health Minister said that 81,183 doses were administered on

Sunday alone (June 6). Of the overall total, the minister said that 2,444,075 people had received their first dose and 1,130,301 were fully vaccinated with both doses.

- Healthcare workers in Vientiane, Laos will begin administering the first dose of the Pfizer Covid-19 vaccine to target groups starting on June 16. The move is part of government efforts to expedite the vaccination programme and immunize 3.7 million people, or 50% of the total population, by the end of this year. Deputy Director General of the Department of Communicable Diseases Control under the Ministry of Health told a press conference on Saturday that the Pfizer vaccine will be given to 50,300 people over the age of 60 and with underlying health conditions. First doses will be administered between June 16 and 30 and second doses will be given 21-28 days later. As of June 3, more than 647,300 people had received a first dose of a COVID-19 vaccine, while 283,474 people had been given a second dose. The AstraZeneca, Sputnik V and Sinopharm vaccines are currently being administered.
